

# FOREST VIEW HIGH SCHOOL

1990

THE SCHOOL  
WISHES TO THANK  
THE ADVERTISERS  
WITHOUT WHOSE  
HELP IT WOULD  
NOT HAVE BEEN  
POSSIBLE TO  
PRODUCE THIS  
MAGAZINE, AND  
HOPES THAT  
READERS OF THE  
MAGAZINE WILL  
SUPPORT THE  
ADVERTISERS.

## Editor's Note

I take this opportunity to thank all of the people who were involved in the production of this year's magazine.

Producing a magazine is a very expensive business and in this case it would not have been possible without the advertisers and I thank them for their contributions. All the pupils who took part in the Workday played a part. I thank Mrs Priscott for all the hours she spent organising Workday, finding advertisers and organising the finances, and Mrs Crum for her efforts organising Workday.

I would also like to thank Mrs Rice for the time she spent proof-reading and Mrs Jacobi and the Form Six Typing classes for their efforts in typing the copy. I record my appreciation to the teachers who provided art work, technical drawing and creative writing.

The Magazine Committee consisted of Janine Wiles, Jane Emerson, Michael Haugh, Rachel Cameron, Tracey Hartwell, Richard Hendra, Mark Cole, Lisa Bridgeman, Salome Bergs, Sonya McAlonan and Faith Barber.

**CHRIS RICE**

## Obituary SCOTT TAI

**12 April 1976 – 28 July 1990**

Scott was a person who had a warm, friendly relationship with his classmates. We regarded him as a fun person to have around. Because he was able to see the bright side of situations, he was able to help many of his friends through difficult times. Scott tried to make other people feel happy and often helped them to laugh. Sharing his emotions was part of his character; he was not afraid to show his inner self.

Scott enjoyed playing sport and used his considerable energy and talents to good effect on the rugby field. He was a member of the third form Under Fifteen rugby team.

Scott was a fun person to be with, a smile that showed he really cared about life, and a classmate that no one could ever replace. We regret that Scott has gone from us. We extend our sympathy to his family. He will always be remembered by 3W1 and his other friends.

PART-TIME ASSISTANT CLEANERS
- Mrs E. Aoake, Mrs C.A. Bullmore, Mrs B. Cridge, Mr A. Dunn, Mrs C.M. Duin, Mrs D.P. Jones †, Mrs M. Kemp \*, Mrs N. Malcolm, Mrs T. Smith.

## Staff Notes

Despite all the dire predictions about "Tomorrow's Schools" the Forest View Staff have survived the first year under the new regime. There have not been mass suicides, indeed not so much as one immolation on the front steps, although these same steps were decorated one evening, presumably by some wayward political malcontent.

The British invasion continued with the arrival of Doug and Cath Clark, complete with canine companions. The Clarks have settled very happily into colonial life but they should be warned that "sleeping in" can have unexpected repercussions. Ask the Crawfords.

Other new arrivals include Denise Hein, whose dulcet tones can be heard ringing through the corridors, Doug Gooding, Bev Hodges, Ken Jeffaries, Lynette Taylor, Marshall Gass who thought he was an English reliever and is now bridging the gap in Economics, and Sylvain Samé.

Sylvain is also responsible for another new arrival, a little boy called Thomas. Other staff actively opposed to Zero Population Growth are Joanne Josephs who has a delightful little girl, Shannon, while Chris Stokes completely overdid things, as she is wont to do and produced an 11lb whopper named Adam. A clear case of enthusiasm leading to excess?

The Crawfords have not produced any new offspring as yet but watch this space.

Clear winners in the new arrival stakes, however, must be the Thains who scooped the pool by providing a grandchild – a boy by the name of Kieron. This entry cannot be matched.

Congratulations to all proud parents and grandparents.

There has also been some internal movement, if you will pardon the expression, as Joan Stephenson has taken up the post of remedial teacher.

Departures this year include Hugh Derham who is moving to the mainland, leaving yawning gap, and Keith Singlewood who has clearly revealed his suicidal tendencies by taking up a position testing learner drivers and taking terrible revenge on former recalcitrant pupils. Donna Jones of the cleaning staff has gone on to other pursuits, as had Ruth Trigg. We wish them all the very best for the future.

The most heroic staff of all – our relievers – must be thanked. These brave souls are called in at very short notice and must be prepared for anything. This year they have included Maggie Sharpe, Yvonne Parry, Marilyn McPherson, Bev Goldsworthy, Lois Kelly, Sonia Dickson and Allan Williamson.

Apart from coming and going, the rest of the staff have not been idle. there have been many sporting and cultural trips including an evening at the Aotea Centre to see "Anything goes". Very appropriate.

Chris Rice, conscientious H.O.D., that he is made a special trip to Auckland to see a production of "Hamlet" but was somewhat disconcerted to find the Prince of Denmark wearing a "cardie". Not pink.

KANE McPHERSON

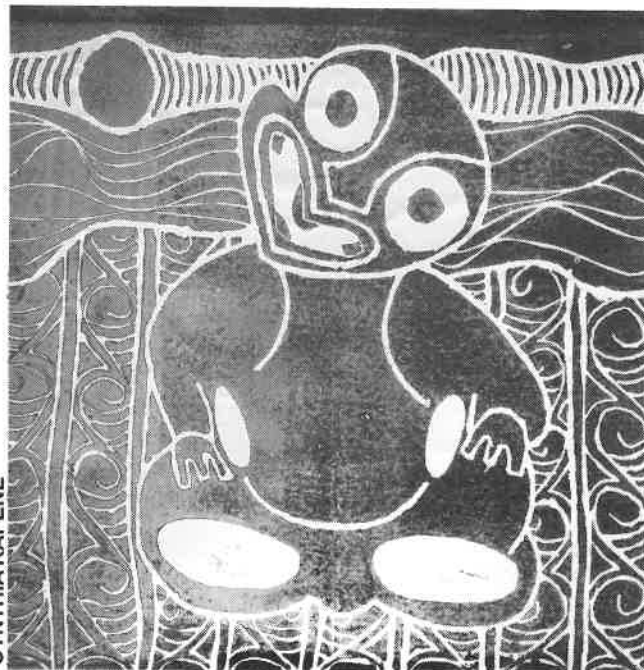

In addition there have been some stalwart souls who have braved overseas travel with assorted groups, for example Bryce Dale's third form trip to Australia and Moana Whatarau's highly successful cultural tour of Adelaide with the Maori group.

Shaun Cantwell has also been dashing about the globe with the N.Z. Athletics Team – he has been to Fiji and is soon off to Japan.

On the home front, staff have been pursuing a variety of interests. Mary Crum's office has been a haven for social deviants, Trish Priscott has not moved house and Anne Roberts has discovered a new passion for golf. At weekends she can be found glued to the TV, that is when she is not trundling around the green risking life, limb and panty hose in the pursuit of a hole in one.

We end the year battered but undefeated and look forward to a new year of interesting challenges and a new crop of eager young pupils to enjoy and share experiences with. This is not strictly true, but I am desperate for an uplifting conclusion.

## Pupil Council

The 1990 Pupil Council was chaired by Richard Rangi and Judith Vanner. Our Secretary was Kellie Arthur who left us in July for an A.F.S. experience in Denmark. She was replaced as Secretary by Lisa Robson and the Treasurer was Jane Emerson.

The Council consisted of representatives from each junior class and Executive Councillors. Four of our executives gained overseas placings with A.F.S. and were replaced by eager new pupils who contributed well to the Council.

We had the following committees which dealt with ideas brought to the Council by both teachers and pupils: Social, Finance, Projects and the Minibus.

The 1990 Council spent the previous 1989 workday funds on a stereo for the gym, a minibus radio and money also went to the Typing Department and the Maori Club.

A new account was opened by this year's Council. This was the 'Band Account' which was set up to provide equipment for future school bands and productions. A group of promising young musicians bred by Forest View High School inspired us to support this cause. The money has helped purchase a P.A. system for the School.

Early in the year Marie Tonga attended a Hui in Wellington, compliments of the pupil council ... all expenses paid. She found this to be a most enjoyable trip.

We also took over the running of socials and mufti days. Thanks to all involved for the co-operation.

An Open Day for all future Forest Viewers was a great success this year. This was organised by Mrs McAlonan, Mrs Scherer and keen Pupil Councillors who acted as tour guides for the day.

Recognition must also go to the 'Hudson sisters' who as dedicated councillors have added to the character of our school. Mandy organised the planting of two trees in the school grounds and Jackie provided more rubbish bins. These are to be brightly painted (as an encouragement for rubbish to dive on in)! Both these environmental aspects will be a future feature around the school.

This year the Council organised a 'Green Day', in honour of 'Earth Day'. The idea was to wear something green, whether it be a sock, a shirt or a hat. What a turn out! This proved to be an interesting and successful day, enjoyed by all.

The Social Committee of 1990 contributed well in organising and helping run school socials. Richard and Chris were the leaders here.

Pupil Council has also helped with contributing funds to 'Operation Skateboard'. Through the running of the cake stall and social we also send best wishes to Craig Shaw who is venturing to Mount Everest for a big day clean up project. "Best of luck, Craig."

A Sausage sizzle and a surprisingly successful coin trail helped to raise money for 'Telethon 1990'. Many thanks to the band Heart Soul and Mind who performed during a lunch hour also for telethon.

BRIDGET DULEY

Communications with Tokoroa High this year proved to be a success with meetings held at each school throughout the year. Exchanging ideas with the opposition is always an enlightening experience.

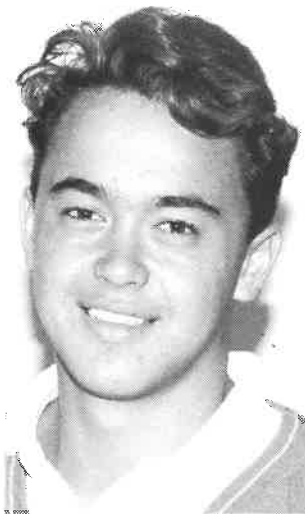

Thanks must go to the 'Book Keeper' Mrs Thain. What would we do without you? Also Mrs Sommerville ... you've been great!

All round thanks to all Councillors, both junior and senior and to all those who contributed ideas to the 1990 Pupil Council. Best of luck to those who will move on to become the 1991 Council. All it takes is a bit of motivation, a positive attitude and a lot of nagging!

## Sixth Form Trip

The students dolefully wiped tears from their faces as they tore themselves away from their beloved school. They ignored the cries of "don't go" and "come back" from heart-broken staff and trudged to the bus.

The tears of sorrow soon vanished as the bus hit the road and headed for the "Big Smoke" – the Sixth Form Trip to Auckland was under-way!

On arrival hordes of 'blue students' poured into McDonalds (a familiar and welcome sight in Auckland) and coffee shops in Manukau to graze. After satisfying hunger pangs, the mob was split into two as one lot went to a Polytech and the Biology Students went to the Zoo. The most memorable thing about the Zoo was learning that an orangutan can rip your arm off – who still thinks they are cute?

We learnt who the 'fussy eaters' were at the Willow Park Convention Centre, before heading off to Footrot Flats. The roller coaster was sickening, the dodgems turned pacifists into aggressive animals and the bumper boats were WET! (Some thoughtful students gave Mr Dowdle a 'shower' so as to save him the bother late that night). A great time was had by most, although everyone seemed pretty weary of 'thrills' on the trip back to the camp.

The 'fussy eaters' filled themselves up at McDonalds. A couple of people had lost their voices by this stage and contrary to popular opinion it was not because of over-talking – some 'generous' individual was sharing his/her cold around.

That night we slept in the single-sex holding pens; the 'men' desperately trying to avoid the wrath of "the ogre" (Mr Clark during daylight hours). The ladies, well, you'll have to ask one of them to find out the 'terrors' they endured that night.

Morning came much too early and was greeted with the sleepy protests of students. Some people, in an effort to establish a 'hard image', went for an early morning run, but since no one was up to see them return, their efforts were wasted.

Auckland turned on what can only be described as 'gross' weather, for our visits to various careers places. We spent the rest of the day 'stressing out' trying to catch buses and ferries – a cunning plan on the part of the teachers, who were trying to 'lose' us. Most of us battled through the torrential rain and fol-

lowed sudden instructions to be rewarded with a game of Ten Pin Bowling.

That night the lights dimmed, the audience hushed and the tension built up for 'The Concert'. 'The Boys' gave us a brilliant skit on how to be tough, and after much deliberation on the part of the judges, they were declared the winners (even with heavy 'bribing' on the parts of other groups). Everyone else made fools of themselves, having a great time in the process. The people who did the 'Runaway' skit deserve a mention for the most pathetic skit of the night! The teachers' skit was on a "higher intellectual plain" and so it was a bit difficult for we students to follow. However all the teachers made absolute wallies of themselves, so we went away satisfied!

Morning was 'early' again to the dismay of all at the camp. We split up again to go on various visits, the main one being the Geography Trip. The highlight for me was rolling a tyre down the crater of Mount Eden. In the afternoon we hit the shops of Queen Street. It was highly frustrating (when the power was cut for half an hour or so the shops were closed) for 'demented' shoppers desperate to spend every last penny. We left Queen Street foot-weary, laden with 'bar-

gains' and relieved of our hard earned savings.

Ice Skating was a 'chilling' experience, and wet for all those who couldn't skate! Some individuals thought they were clever going fast, when in reality they were completely out of control - they were good for a laugh ... except when they crashed into people. On the way back, to the strains of "MIC...KEY ... MOUSE", we nursed our blisters and aching feet.

The last night in the camp was pretty uneventful mainly because of the general tiredness.

Morning was very early and was greeted with much protest. After cleaning up, we piled into the buses ready for our trip home. The Airport was our last stop. We were given question sheets to fill in although in the end most people got their answers from each other. A helpful lady gave us most of the answers, although I later found out that they were mostly wrong.

We all lolled about on the buses on the trip back, in a state of exhaustion. Teachers suffering from nervous breakdowns, mumbled gibberish and tore their hair out.

As we stumbled out of the buses, home at last, it dawned upon us that we were no longer part of 'the mob' but individual students of Forest View once again.

The trip was highly successful, due in part to the great effort from the teachers and also to the co-operative and mature Sixth Form Students (as long as you don't regard putting toothpaste all over someone's face as immature!)

The Sixth Form Trip is great, but exhausting. You have been warned!

## The Variety Show

The stage was set, the crowd awaited in breathless anticipation, Shaun and Christy, our comperes for the evening took the stage and the 1990 Variety Show was underway.

This year there were so many people who wanted to come and witness all the talent that the Variety Show was staged over 2 nights, both of which were very successful.

First up was the Maori Culture Group who gave us a very polished and entertaining performance. We were also given another taste of Maori Culture later in the evening where once again the group proved that they are a real asset to our school.

This year also saw a performance by the Polynesian Club who really showed us how to wiggle those hips. They also provided the audience with a good laugh when they called for crowd participation.

I would have to say that the singing items at this year's Variety Show were the best we've had and they will be hard to beat in the future.

First came the Country Chicks and 'boy could those gals sing', their powerful voices really left an impression on the crowd.

We were given another blast of Country and Western later in the evening by Lisa Jones which left us wondering just where all this talent had been hiding.

The Choir gave an interesting performance this year but at least by the second night the majority of them had either remembered their words or the fact that they were on the stage to sing.

The Time Rebels gave a spirited version of 'Chapel of Love' – pretty deceiving name guys.

Finally there were the Trendz who all sang their hearts out and who all showed us some considerable talent.

We also had a variety of dance items this year. Most of us were introduced to the world of Jazz Dance by Megan Thompson and Natasha Walworth who added a touch of glamour to the show.

Then there was the Modern Dance item by Mandy and Jacqui Hudson. These girls can really lift those legs and move those bodies and their dance item was enjoyed by all.

Finally there was La Belle Danse. Be warned all Rocky Horror Show watchers and these girls didn't even need the costumes. Congratulations to Sarah who choreographed the performance.

4Pa gave us an insight into the future with their drama "Robot TS137". Special note must be made of the performance of Aaron Tapsell who must have practised that limp wrist action for days to perfect it for the night.

Then the lights dimmed, in fact the lights went right out and Angela was left to play her piano solo in the dark. However Angela was not deterred and gave an excellent recital. She opened many eyes as to just how entertaining piano music can be.

I don't know quite how you'd classify the B53s but just lucky for the world the B52's were discovered before these guys got loose. Trent and Shane were caught in an interesting but I'm told rather enjoyable position when the tape got stuck one night. Their costumes definitely made a fashion statement; but maybe they're just a decade or two too late. Their version of the 'Love Shack' was "unique" and they definitely added a touch of humour to the show.

Then there's Heart, Soul and Mind (HSM). These guys were AWESOME, they were really great. In fact they were so good they had to come out again. I would have to say HSM were the highlight of the evening. They show real talent. A really exciting prospect for the future. Best of luck to them all.

And last but by no means least, the FVHS Staff. These guys could put the Australian Big Boys to shame. Maybe they all have night jobs at Charisma. Some bods were sure exposed that night and both students and parents alike saw a side to the Staff they'd never seen before and I believe would be unlikely to see again. However the sight of a bit of bod definitely drew the crowds.

Thanks to all those who made this year's Variety Show possible.

## Senior Ball

Young men usually seen in holey socks and grass stained shorts hold their tuxedo tails back as they open the car doors for their anxious and excited partners.

All eyes are laid upon the open door a foot, a long slim leg and then, yes, a peek at the beautiful gown. The two, more often than not unrecognisable at first glance, walk into a room full of glamour and beauty. The lights down low, candles lit, whispering greets them. The 1990 Forest View Senior Ball is finally here.

The dinner in all its glory was served and the young men and women were told to "Dig in!" Bottles of wine, pavlova and brandy snaps accompanied the meal of salads and hot and cold dishes.

The young ladies, now starting to relax, went off in small groups to the "powder room". These trips were soon put to a quick ending when the lavatory overflowed!

The dancing began with Judith Vanner and Richard Rangi leading the Snow Ball Waltz. An excellent arrangement of music was supplied by the local band "Trax".

The photographer arrived and things slowed down some what as various photos were taken. More dancing was followed by the big announ-

cements. The couple of the night award went to (a drum roll please) Chris Gear and Janine Wiles - Chris receiving a pair of boxer shorts and for Janine a slinky pair of 'panties'.

The Beau of the Ball was awarded to the very handsome and smart looking Fa'amatala Ali'ifa'alogo. Then finally the elegant award for the Belle of the Ball was presented to Rosemary Tau.

After the formal part of the night had ended, our glad-rags were put on. Students headed to the party in Amisfield for the under-20 year olds and the Teachers moved off to the Clark residence for the over-30 year olds.

The girls still with their hair done in elegant locks looked strange with their sneakers and jeans.

A few gentlemen decided they liked the 'high' life and arrived at the party in a limousine and still dressed as penguins!

An excellent time was had by all at both functions and Sunday held more splendour with champagne breakfasts to face.

A mention must be given to Mr Derham who couldn't be with us for the first time. Thanks for everything you did to make the evening the great occasion it was. Farewell - you will be sadly missed.

Thanks to all staff members and to the Ball Committee - you all did an excellent job!

## Seventh Form Trip

Right from the beginning it was a real family affair – Mr and Mrs Cantwell, Lesley 'why don't you want to be my friend, Brett' Cantwell, Mrs Crawford loaded with bags of nappies for ankle high Graham 'you wouldn't deny this gorgeous face that yummy burger' Crawford.

The atmosphere on the bus was one of slurred speech and heavy eyes as we pulled out of the bus bay at 7.30 a.m. Monday morning. While speeding down the highway our time was spent fighting over the tape deck, exploring Graham's toys and convincing Lesley that 'Daddy' wanted her up the front.

As Waiouru came into sight, girls suddenly perked up, scanning the territory for a distressed man in uniform. Greeted only by a female out of uniform, we decided to check out, or rather clean out, the cafeteria.

Another long haul in the old wagon and just as night fell we passed the Beehive. Finally

arriving at the Rowena Budget Hotel our weary bodies hauled suitcases down side streets and up a steep hill, not to forget the stairs. The hotel was similar to a Youth Hostel, rooms for 5 with unisex toilets and showers. A cheap but comfortable place to stay.

Later we hit the night streets of Wellington, bombarding McDonalds and the local theatre where a 'sit in' was held in the foyer. After insisting that we were students we received a discount and moved into a seating area, where we found that jaffas have very good aero dynamics.

Arriving 'home' we found ways to consume time until the league started. These ways included card games of all sorts, the usual pillow fight and sleeping bag races down the flight of stairs.

We awoke to Tuesday's sun shining and birds chirping and the sprint was on for the dining room, the showers and Brendan Graham's hair dryer. The heavy night life seemed too much for Chris Gear, Richard Rangi, Craig Depree and company. The door to their room revealed snoring bodies and stale air. Oh well, can't wait for them – we were off to make our presence felt at Victoria University. We wandered around until later we boarded the cable car and hit the slopes of Wellington.

Dinner that night was at Ghengis Khan Mongolian Restaurant. This included a quick lesson on the traditional utensils – chopsticks. Upon leaving the restaurant, we were faced with the sight of our bus hitched to three tow trucks. After paying the fine the bus driver shoved the bus into gear and we headed up to the beautiful sights of Mount Victoria.

Wednesday we decided to give Wellington a break and move on to Palmerston North. After a day's travelling we were let loose into a supermarket to buy our necessities for the rest of the week. Some groups 'necessities' came to \$40, others to \$70.

Arriving at our cabins complete with kitchen, shower and toilet, we prepared our meals and slumped on the sofas in front of TV. Visiting the

CARA PATERSON

RICHARD RANGI

This page sponsored by:

# Fabric Centre

other cabins came to an end and an early night was had by all.

Thursday we were led to Massey University – this proved to be a similar experience to Victoria.

A pot-luck dinner was to be had that evening where each cabin prepared a dish; a dish proved to be pasta and mince, salads, weetbix, apples and cream dessert, a peanut butter and I don't know what dish? The arrival of the 'Seniors' was appreciated, along with a pramful of alcoholic beverages, more food and many exciting and interesting games to play.

Wade Maxfield was also a saviour with his shoe box of tricks, army paint and water bombs. While most of us were playing 'war', Karyn Lane and Kenneth Mitchell decided to have a quiet evening playing cards.

Friday brought the long trip home. Breakfast was had on the bus – cocoa pops straight from

the box quickly followed by warm milk.

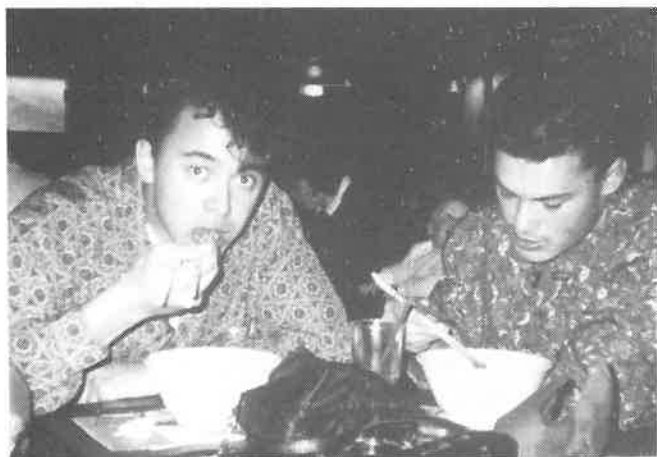

On the road again weary eyes still looking for hints of snow and waiting for the first sucker to fall asleep. That sucker happened to be Chris Gear who was smeared with toothpaste, after-shave and mousse. A toilet stop at Taupo saw Chris get revenge and eggs suddenly appeared from nowhere.

Finally thanks must be given to everyone involved – I had a great time guys. To Mr and Mrs Cantwell, thanks for treating us with respect and giving us freedom. To Lesley – um – thanks, don't go spreading the new vocabulary you learned too widely!

Mrs Crawford, thanks for being yourself, a friendly figure and to the Bus Driver – you were really great! Sorry about the fine.

The Seventh Form is a great year and this trip only helps to enhance the activities to follow! THANKS!

LISA BRIDGEMAN

## Seventh Form Geography Trip

With tramping boots and longjohns packed, the 7th form Geographers set off into the sunrise in search of a jolly good time – three days looking at rocks!

Into the dorms at the Chateau village and War began, it was males against their superiors, with Rachael Franklyn the unsuspected secret agent to control ransack and destroy missions.

The fire alarm was a highlight, leaving Deanne and Kellie with their bare essentials in an urgent flight from the showers.

We had Mr and Mrs Wiles and Mr Dowdle to keep us at bay and under control. the second day of dirt and sweat arrived and Mr Dowdle topped the Bruce (Ruapehu) with a stress factor 9, as he decided to leave the minibus in the deserted Whakapapa village and locked every door but his own! As the weather deteriorated, we were forced off the mountains to attempt the summit the next day. Brett and Richard cooked dinner with their mystery fish portions that night, but could not compare with Janine and Lisa's fascinating meal the night before.

We had an exciting day of walking all over Mount Tongariro, (total – 8 hours), investigating the crater lakes and scoria and trying to erode the trails, much to Mr Dowdle's dismay. With Mr Dowdle in the lead and Mr Wiles bringing up in the rear, and all the tired 'younguns' in between, it was down hill to the Ketetahi Springs, where volcanic mud face packs were in order.

While on a heated and brave dash from the mountain, Shaun managed to break his ankle, and our hefty troopers carried him to where Mr Wiles was waiting with the minibus. Our long day was rewarded with a swim, Mosie deciding to be different and hitch-hike. The funny thing

about it was – he got picked up! Speaking of pick-ups, Mr Dowdle managed a nice young foreigner too. But after all the excitement was over, it was off home in real vans, aye Brucie eeh eeh! Oh ... and we did do some work too!

## Open Day

On Wednesday 15 August Forest View High School held its Open Day. The object of the occasion was to show the pupils of the two Intermediate Schools and their parents, plus the parents of our own pupils, what Forest View is all about in an as near to normal school day as possible. The whole school responded extremely well to the challenge of the day.

The individual classrooms had their walls decorated with displays of student work and each Department set up information showing how that subject fitted into the curriculum.

The Auditorium was used to show all the extra curricular activities of this school and thanks to Mrs Clark's organisation, the enormous range of our activities was well presented.

On entering the Auditorium our visitors could see our uniform and thanks to a fine display by our Guidance Department and Careers, gain a clear idea of the aims and objectives of the school and the different subject pathways that could be taken at each level.

The method of showing the Intermediate pupils around could only be described as a 'Merry Go Round' and thanks to some very hard work and good organisation by our Pupil Council this worked very well with a new bus load of pupils arriving every half hour.

Morning Tea was very ably provided by three cheerful members of the Fifth Form Transition Class who kept workers and parents well lubricated with cups of tea and biscuits.

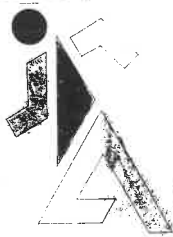

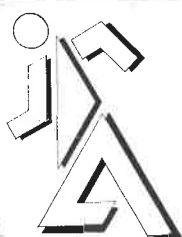

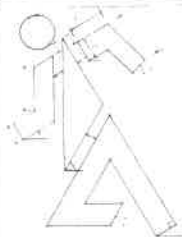

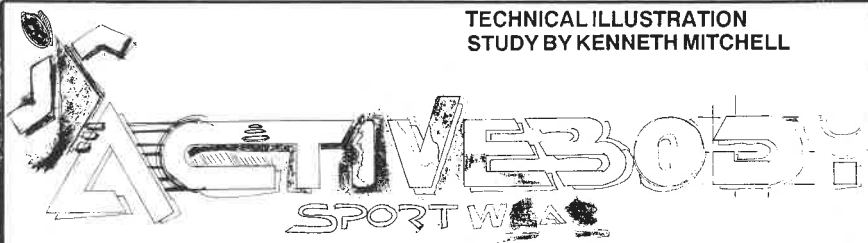

I feel that the day was a great success in that not only did we show the present Intermediate pupils our school, but we took a good look at ourselves and found that we are a school that provides an excellent teaching and learning environment, and a wide range of extra curricular activities both cultural and sporting.

This was emphasised by comments from our own pupils who visited the Auditorium at Lunch-time, where for the first time the whole range of our activities from our camps to trips to Physical Education, Health and Sports was set out and many had not realised some of what was available.

My thanks go to everyone concerned with this day. The co-operation and enthusiasm of both staff and pupils showed what a good school we have!

## The Maori Culture Club

The year started out with an enthusiastic group of young individuals coming together for one cause, the formation of a Maori Culture Group.

The group throughout the year had many a task. Between practising from 7 p.m. to 9 p.m. every Monday night, to making pari (bodies) and pois, to learning words and actions we were all constantly busy.

Our first performance to show off our talent was at the Forest View High School Variety Show at the end of Term One. Here we got to see a crowd's reaction to our work, what needed to be improved and how to show our culture to all. This first performance brought us very close together and the bonds have grown ever since.

Our major task of the year was preparing for and going to Australia during the August Holidays. This entailed having to practise harder and work harder to raise money by raffles and batons up, hangis and other activities to meet our goal. We also gave a fundraising concert which brought in a lot of money but more importantly was great fun. Overall it was a big success enjoyed by all and again bonds strengthened. Then between organisational meetings and practises we stopped to perform for a birthday party, and a 21st. We also paid our respects by performing at Scott Tai's tangi.

Soon after all this the day arrived when 19 of our 22 members plus eight adults got on a plane and headed for Adelaide, Australia.

Upon arrival we did many things. We performed for various schools (which made us famous as many of the children wanted our

autographs), tried indoor skiing and did a lot of shopping. From Adelaide we travelled up to Port Augusta and then up into the outback to Nepabunna. Here we gained a very new and exciting look at Aborigine life and even some of their cuisine. The three week trip was a great success and by the time it was time to come home many lifelong friends had been made.

Upon arrival home with bonds in the group stronger than ever we took a break from practising but did get together on social occasions to view videos of the trip and have fun.

In the last few weeks of the third term practices will start again and performances for

the AFS National Council and Senior Prizegiving will end our year, which I'm sure everyone in the group feels was a good one.

Kia ora koutou katoa.

## Athletics Day

In the beginning, the sun was shining, the birds were chirping and pupils were bouncing, throwing, jumping and sprinting around the field.

Later as two downpours of rain suddenly hit everyone we ran for cover. There were, however, those among us who weren't afraid of "a bit of rain" and continued with the events. Those people finished with results ... and also very wet and rather revealing t-shirts.

The champions for this year were:

### Relays:

Boys: 3D1, 4Wh, 5Pr, 7Js

Girls: 3Rb, 4Cr, 5MI, 6Do

## Cross Country

This year's Annual School Cross Country, held on Wednesday 22 August, carried on the tradition of being a miserable, overcast day. The rain though, held off till the start of the Senior Boys' race and then it poured.

The results were:

**3rd Form:** Girls: 1st Lauren Marchant. Boys: 1st Todd Rowan 3W1.

**4th Form:** Girls: 1st Jodye Tomalin 4Cl. Boys: 1st Stephen Stretch 4Cr.

**5th Form:** Girls: 1st Angela Martin 5Go. Boys: 1st Michael Parker 5Pr.

**6th and 7th Form:** Girls: 1st Sarah Robinson 6Do. Boys: Dean McKenzie 7Ca.

A class competition was also held this year.

The results were:

**3rd Form:** 1st 3Bh, 2nd 3Wl, 3rd 3DI.

**4th Form:** 1st 4Cl, 2nd 4Wh, 3rd 4Cr.

**5th Form:** 1st 5MI, 2nd 5Gb, 3rd 5Hn.

**6th and 7th Form:** 1st 6Do, 2nd 7Ca, 3rd 6Cf.

## Senior Boys' Basketball

It was a good season for the Senior "Men's" Basketball team this year. We finished the year with a four win, four loss record. All team members can feel satisfied with their performance on court, with some exceptions....

Playing at centre this year were Rangi "Pump It Hottie" Kelly, Smiley "Eat My Dust" Aiono, Marc "Public Enemy" Holmes, and Lucky "MC" Manu. the "Fab Four" worked well together but Rangi never quite mastered the basic concepts. Skills like dribbling were never quite understood and his offensive shooting pattern always incorporated a "close your eyes, stick your tongue out" technique.

Playing forward were Ryan "Buck" Roebottom, "The Hitman" Wayne Robb, "The Stud" Dragovich, David "The Rock" Pakuru, Toia "What's Up Doc" Moke and lastly Uriah "T-Bone" Barrett. These guys provided all the action during practices. Their moves were often indescribable (and usually misunderstood).

And finally The Guards.

Stuart "Ice" Poulava, Edward "Stud Webb" Aiono, Mosie "Lick My Boots" Putoko and of course "The Hammer". They provided the flair, charisma and action for the team. With moves that took place two metres in the air, it's no wonder the ring inside the gym got wrecked. (Sorry Mrs Stokes).

Amazingly all four people declined multi-million dollar offers, from overseas consortiums giving the reason as (and I quote) "we want an education".

This year's winner of the Golden Boot award, was Toia Moke, who was sponsored by Bata

Bullets. Toia came to every practice with his arm in a sling and never played a single game. Better luck next year and thanks for your support Toia. Of the major titles, the annual "Grandmaster Slam" title competition was shared this year. Competition for the "Grandmaster Slam" Award was so fierce that this prestigious title had to be shared between Edward Aiono and

**BACK ROW:** ● Mr Crawford ● M. Holmes ● D.

Rameka. **FRONT ROW:** ● U. Barret ● D. Pakuru

● S. Poulava ● W. Robb ● E. Aiono.

The Hammer. The Hammer was the obvious choice displaying superior ball handling, dribbling and shooting skills. His shooting average reached triple figures (each game) and he was consistently in a different league to the rest of the team. It was eventually decided to share the award when Edward threatened to sulk for the rest of the year and not lend his basketball to anyone.

Mr Crawford, our Cheerleader, team manager and chauffeur played a prominent part in our sideline strategy. Although a man of few words it was noted that his signals were not always appreciated by the referees.

The seniors would like to express their gratitude for the use of Mr Crawford's landrover, reputed to be the fastest thing on four wheels. The V8, Turbo charged rubber band, which has replaced the original Landrover engine, can hurl this vehicle at speeds in excess of 25 km/h (downhill with a following wind). The suspension and seating arrangements do leave something to be desired and the survivors of the Te Awamutu game recommend use of helmets, knee, elbow and shoulder pads and comprehensive life insurance for all passengers.

Finally, thanks must go to our coach Mike for all his work this year and to all the teachers who refereed our games.

## Badminton

The Badminton Club is a club designed for the enjoyment and fun of all its members.

We charge a \$7.50 subscription (a year) to cover shuttles and net repair – while if a school racquet is used then a 50 cent rental fee is charged. We meet every Thursday after school and run through to 6 p.m. We have a wide range of games and often have little tournaments where game scores are taken and added up then a random number is chosen and the winner gets a bottle of fizz or a more. Everybody has a chance to win.

It is a friendly club and has an average number of 20-25 members attending. Refreshments such as drinks and snack bars can be bought for \$1 each.

At the end of the season the club champs are held for which cups and certificates can be won – these are presented at the end of year Prize-giving.

### Results:

This year the Singles Female Championship was taken out by Cara Paterson while Michael McAlonan won the Boys' Singles. Female Doubles was won by Cara Paterson and Yvette Heijl and Male Doubles by Findlay Shilton and William Franklyn.

The Mixed Doubles was won by Michael McAlonan and Cara Paterson. The club also had a 'Rep' team which played a few other schools, however more games are hoped for in the future.

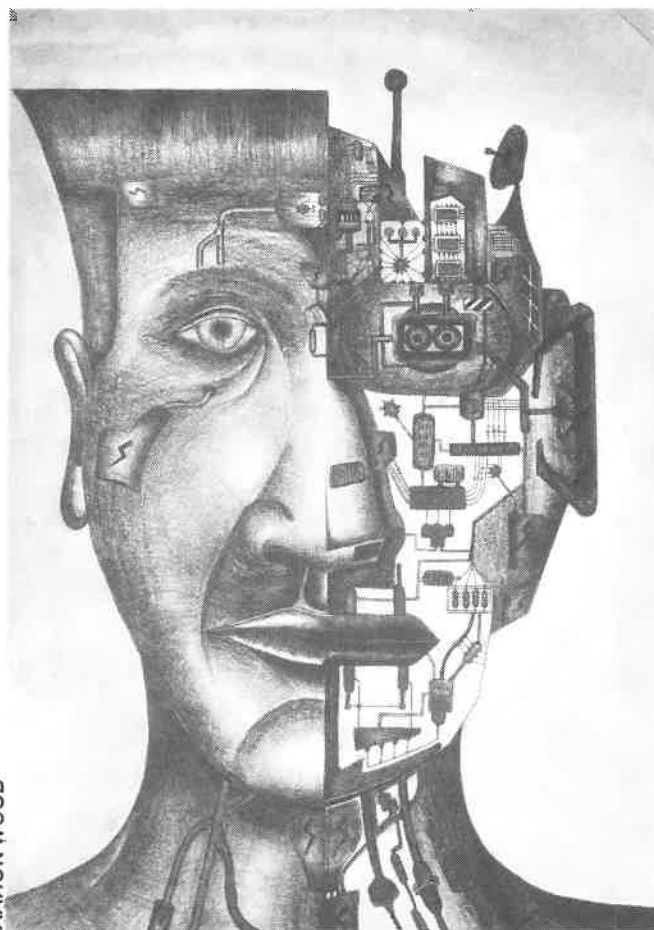

The club was successfully run by Mr Gordon and Mrs McAlonan.

AARON WOOD

## Netball

### A Netball Team

Forest View High School A began the season with an exciting start, introducing three new players, Lee-Anne Jolley, Vanessa Moses and Terena Bonnar, who worked hard and added spice to the team.

We had a wide age range of players, who, with positive thinking and willingness, worked themselves up to the Premier Grade.

After Opening Day tournament our 'A' team was put in the top grade for the Elders Sports competition, where we won all our games, (including the match against our rivals, Tokoroa High School) except the match against the well experienced Spartans Old Girls team.

During the season we ventured to Hamilton to compete against the other top secondary school teams in the Waikato area. There, after we played our best, winning three games and narrowly lost two, we were rewarded with McDonalds.

Many of our players earned places in Rep Teams, including Helena Apaapa. Recognised as a very talented player she was chosen to represent the Midland Under 21 Team, an age group well above her own. Annette Smith was chosen to represent the Midland Under 18 Team, showing her excellent shooting skills.

And also our three new players, Lee-anne Jolley and Vanessa Moses gained recognition in the Tokoroa Under 18 Rep Team and Terena Bonnar into the Tokoroa Under 16 Rep Team.

A sad time was when our Captain Kellie Arthur went overseas on an AFS exchange trip, leaving our team with only seven players. But we are sure her trip will be one in a life time and worth leaving us for.

We would like to thank our ever supporting parents, friends and especially our Coach, Mrs Williamson, and Manager, Mrs Sommerville.

**KARYN LANE AND JUDITH VANNER**

The forward planning in 1988 certainly paid off for the 1990 season. After the Tokoroa Netball Association Open Day Tournament, the 'A' team won the right to play Division One of the Elders Sports Round. During this round the team played some steady, skilful netball to be beaten only by Spartans Old Girls – results for the round – four wins – one loss. This result gave the team the chance to climb out of the A Grade and back to the Premier Grade with the top players for the 1990 season.

The 1990 Championship grade back in the Premier Grade gave the team and coaches of the A team great satisfaction. Most players nee-

**BACK ROW:** ♦ L. Jolley ♦ K. Lane ♦ J. Vanner ♦

A. Smith. **FRONT ROW:** ♦ Mrs Sommerville ♦ V.

Moses ♦ H. Apaapa ♦ T. Bonnar ♦ Mrs Williamson.

ded three or four games to realise the level of play required.

Newcomers gained confidence with every game. A brave positional move by Kellie Arthur from centre to goal keeper proved to be the right one and the combination with Helena Apaapa and Judith Vanner also in the circle, gave the rest of the team the keenness to improve on skills they had learnt. Goal shooters lead by Annette Smith and complimented by Karen Lane and newcomer Lee-anne Jolley overcame the opposition strong defence and were applauded by many spectators during the season.

Mid court players Kellie Arthur (c), Vanessa Moses and fourth former Terena Bonnar worked hard on the style of play asked by the coaches ie, making space, defending space while on attack and by the end of the season opposition teams were trying out the same tactics.

Satisfaction for the whole team by the end of

This page sponsored by:

# Shorts Pharmacy Ltd

# Netball

the season was completed with a fifth placing in the Premier Grade proved that Forest View had justified their place. (Fifty six senior teams were in the competition).

We congratulate Annette Smith who was selected for the Midland under 18 team, and Helena Apaapa, as a fifth former who was also selected for the Midland under 21 team.

After the netball season, it was announced by New Zealand Netball Association that Helena Apaapa had been selected in the NZ Under 21 Squad.

Helena won selection earlier in the season for the Midland Provincial Under 21 team, which played in the NZ Under 21 Tournament in Blenheim. Very rarely does a secondary school player gain selection for a provincial Under 21 team.

Helena's perception of the game, her enthusiasm and urgency on the court has won her many supporters. Her netball attributes have caught the eye of Lyn Parker (NZ Netball Coach) and Vicki Hernfield (NZ Young International Coach) to be included in the 1991 NZ Under 21 Squad.

We congratulate Helena on her achievements to reach such a high level. Helena is in Form Five and this year easily qualified to be in the Midland Under 18 team, but it was decided to nominate her for the higher level team with the intention that her netball abilities would be 'exposed' and 'noticed' by the NZ selectors.

Helena accepted the challenge and has achieved the highest goals attainable – we know that she will watch, listen and participate at the NZ Under 21 Coaching School and most of all we trust that she will enjoy it.

**H. WILLIAMSON**

## B Netball Team

We had a good year considering we played teams who had been together for a lot longer than we had. We lost some players but gained others. We also had a lot of fun during the season with the Taradale trip and winning our grade.

The 'B' team members were:

Browning Tau – that's me! I was the Goal Shooter and a brilliant one at that! I was also the

Captain of the team – keeping everyone in line.

Trisha Katene – Trisha showed us that she could really pull her weight around the court.

She is an excellent Goal Attack player.

Janella Katene – (Lala) Janella can really move around. She plays any position and that's what I like about her. Keep up the good work!

Sonya McAlonan – Sonya is an excellent Centre. She positions herself nicely and is always reliable.

Anneka Kara – (Annie) Annie is quick and smooth on the courts. She really plays with determination.

Rachael Adams – Rachael is a brilliant Goal Keeper. She knows where and when to keep her opponent out.

Jaeleen Cooper (Jay) Jay is very tall and has got nice long legs to jump for the ball. She loves going for intercepts. A good player to work with.

Nicola Tepana – Nicola is a brilliant Goal Shooter and Goal Defence. She has got a good future for Netball in the years to come.

Angela Edgar – Angie is no longer with the 'B'

**BACK ROW: ●Mrs Sommerville ●J. Cooper ●**

**N. Tepana ●R. Adams ●Mrs Williamson.**

**FRONT ROW: ●T. Katene ●A. Kara ●B. Tau ●**

**J. Katene ●S. McAlonan.**

team, but she was an excellent defence player. Unfortunately she went on A.F.S. during the season; this was a great loss to the team.

Mrs Sommerville – Mrs Sommerville gave up a lot of Friday lunch-times, Tuesday nights and Saturdays for us. Thanks, Mrs Sommerville.

Mrs Williamson – Mrs Williamson also gave up much of her time for us and the 'A' team. We gratefully thank you for what you've done for us. Others – Mrs Clark was our Number Two supporter, Mrs Katene being our Number One.

Also several parents and friends came along – thank you very much for your support, keep it up. I hope next year's 'B' team have as much fun as we did this year.

**BROWNING TAU**

# Netball

## Royal Netball Team

The Royal Netball Team was made up of eight strong players all from the third and fourth forms. They managed to show good strong keen efforts and smiling faces.

The team did well to come runners-up on opening day. Unfortunately for us we lost a very skilful player, Trisha Katene, to a higher team. But not to worry, later in the season we acquired an equally skilful player, Dana Reedy who showed real skill with her shooting.

Other members of the team were:

Ngatuaiane Matangi – who with her excellent defence got a lot of the ball for the team.

Maria Teinakore – Another skilful, dedicated player who also was particularly strong in the circle.

Renee Taumata – The little mean machine who was everywhere at once. Great player all round.

Ereena Hireme – A happy, dedicated player who showed heaps of talent in her defence work. Never a dull moment.

Tasha Bonnar – Somebody to watch out for. A very talented player who made short work of her partners no matter how big they were.

Melanie Rouse – A skilful, impressive player and shooter in the circle area. Always a laugh. Selina Boyd – Showed good ball skills when she was able to stay on her feet.

On behalf of the team I would like to thank our coach, Mrs Clark for putting up with us. Also, great thanks to Mrs Williamson and Mrs Sommerville for the extra coaching on Tuesday nights.

SELINA BOYD

**BACK ROW:** ● D. Reedy ● N. Matangi ● M.

Teinakore ● Mrs Clark. **FRONT ROW:** ● R.

Taumata ● E. Hireme ● S. Boyd ● T. Bonnar ●

M. Rouse.

## Seventh Form Netball Team

Our seventh form team did not consist of just seventh formers – we had two A.F.S. sixth form students. We also gained three extra players in times of need.

The two A.F.S. students Paivi Anttila and Vicki Wendt were newcomers to netball, but proved they could catch on quickly. Vicki might have lost her skirt a few times but enjoyed the game all the same.

Katrina Buckley, our captain, who didn't have a skirt on the day and was always asking where the ball was, proved that she made up for her disorganisation off the court while on the court, by being everywhere when you needed her. Katrina left for Czechoslovakia later in the year. Sharon Judkins turned up all the time. The one day she didn't, she went to the South Island. Rachel Franklin proved to be a good all-rounder after a long break from the game.

Tracy Cox played wing defence very well.

Jane Emerson was the quiet person on the court, who injured her leg just for an excuse not to play netball (nice try Jane!)

Christy Will, also an A.F.S. student, proved

skilful on the court. For a 'Yank' you're doing well.

Tracy Hartwell who had the support of her mother as well as her own big mouth on the court, yelled threat and, of course, encouragement.

Faith Barber was a hockey player who didn't need a stick to prove her skills.

Janine Wiles was a soccer player who still doesn't know the difference between catching and kicking the ball.

Rachelle Cameron had no speciality but proved she had skills on court and always tried hard.

## Aqua Netball Team

Centre: Michalle "Bunny" Petero. A very skilful player who always surprised us with her little jumps and skips around the court.

WA: Caroline "Hardball" French. Always was the comedian of the team although she could not control her own strength.

WD: Paula "It's too cold to play" Hewitt. Hated playing in the early morning frosts (who didn't?) but was one of the aggressive players on the team who could always outsmart her partner, however big the partner was.

GA: Leanne "What a shot" Rouse. Always amazed us with her goal-shooting and her all-year-round tan!

GS: Aloma "I'm not coming if it's raining" Middleton. Never liked playing in the wet weather, but her long arms and legs always caught the ball when it usually went whizzing past our heads.

GD: Sarah "Orphan" Sade. Sarah came half way through the season and was forever standing on the opposition's feet – accidentally of course! GK: Vicky "Born in the USA" Wendt. The American exchange student, who also came half way through the season proved to be a valuable player for us to have.

GK/C: Angela "Ngaire Bumpkins" Martin. Picked up all sorts of nicknames over the season with no moans or groans. Angela was one of the most reliable players a team could have.

GD: Leanne "Pomare". Enjoyed playing for Aqua even though I was out for half the season due to an injury.

## Netball

ex-GK: Natalie "Where did you go" Boss. Left half way through the season due to unforeseen circumstances, our rival team Indigo. She was a valuable player and was greatly missed.

Last but not least we would like to thank our faithful sideline supporters including Mr and Mrs Rouse and Mrs Hewitt and the many others who supported us through our victories at Opening and Closing Day in the C Grade. And also through our losses - some narrow, some not.

LEANNE POMARE

### White Netball Team

The best way to describe this team was as sort of a "make-do" team, because with the people that dropped out and the ones who never came to our games, we had to 'make do' with whoever we could find!

But in the end with help from our two choice coaches (Judith and Karen) our team ALMOST won our division!

At the end we were:

Bronia Thompson  
Marie Jacobi  
Amber Edwards  
Tracie Thompson

Tui Kotuhi  
Debbie Barret  
Leslie Mulford

### Indigo Netball Team

This team peaked late in the season to make it into the 'D' Grade finals. Although we played with only six members we still managed to win a pair of socks.

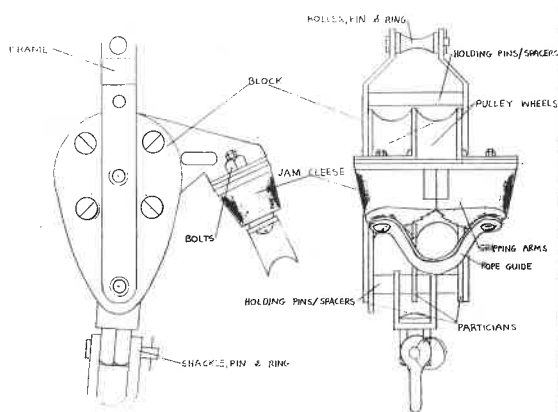

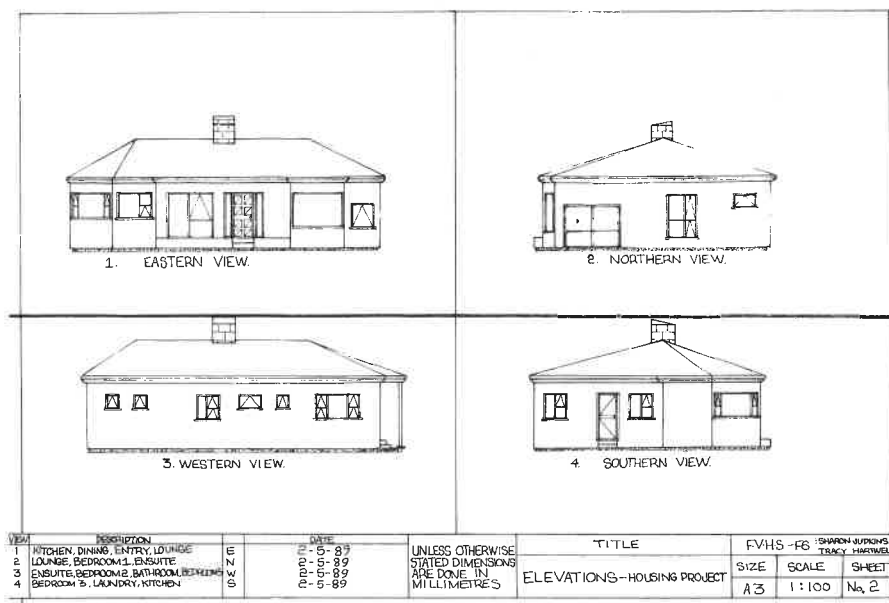

Our players, Nicola Gatenby (Captain, C0, Jadene Ratu (WA), Kelly Morrissey (GD), Kirstine Lomas (WD), Siobhan Gadsden (WA, C), Janet Brighthouse (anything going, but usually WD), Kiri Wright (GS) and last but not least Natalie Boss (GA), usually arrived late, just managed to stumble onto the court and showed good team spirit.

We were coached for the first month or so by Kelly Arthur and Angela Edgar but after that they gave up and went overseas. So without any coaches or any practices we pressed on.

All in all playing in the team was great and we had a good year.

# Hockey

## Boys' First Eleven

This year boys' hockey was a very enjoyable and successful affair – there was hardly ever a time when we all weren't wearing a smile.

This year we played in the Waikato Secondary Schools Competition for the first time in many years and I think we gave a lot of teams a big fright.

This season will be our last with Mr Derham as our coach as he is moving to Christchurch, so we are in the market for a new coach – are you listening, Mr Dowdle?

Mr Derham was not just our coach this year but he was more like a father figure to us all, helping us with all sorts of problems.

Mr Elder was also a great help with transport. Thanks, guys, it was much appreciated – we just have a funny way of showing it!

### Player Profiles:

**Paul Derham (Captain):** Paul was by far the most talented in our team this year, and he would often leave the opposing teams' mouths gaping wide open with amazement when they

saw his skills. Paul also made the NZ Under-17 Team this year, making him a great asset to any side, but he will be sadly missed when he moves to Christchurch next year. Overall, a hockey player who has a great future in the sport, who some day may represent the country at senior level.

**Scott Ngarotata:** Scott was a good team member, always letting us know when he had a new joke or a yarn to spin about Arnold Schwarzenegger. He will be a great asset to the team next year as his skill level is very high.

**Bruce Henderson:** Bruce was by far the most improved player and near the end of the season he was near impossible to get past. Bruce will be another good player for years to come.

**Aaron Wood:** A new addition to the sport of hockey; however, this did not slow him down at all as he was always enthusiastic and willing to give his all.

**Jade Hudson:** This was Jade's 4th year in the team and his experience rubbed off on many of the new players. An enthusiastic member of the

team and always attended practices.

**Glen Roberts:** Glen was a steady player with an instinct to bash the ball straight at our opponents. I'm sure he was getting paid on the side as he always had pockets full of money.

**Wilfred Cortesi:** "Winna" was in awesome form this year and if you messed with him you came off second best. Whenever we played in Hamilton we would have to take Winna to a 'Spacies Parlour' to relieve his withdrawal symptoms.

**Robert Rogers (Vice Captain):** Before each game Robbie would try a new wrestling move on one of us – watch out for his 'body scissors.'

**BACK ROW:** ●B. Henderson ●J. Hudson ●M.

Elder. **MIDDLE ROW:** ●Mr Derham ●S.

Ngarotata ●N. Watts ●W. Johnson ●A. Wood.

**FRONT ROW:** ●G. Roberts ●W. Franklyn ●P.

Derham ●P. Tetzlaff ●K. McCallum.

Leith Place, Tokoroa. Phone 886-5111

it really hurts. Robbie's form this year was also excellent as he took over Paul's position when he got injured. He was like a well-oiled machine when he got going.

Malcolm Elder: Malcolm was a key player throughout the year with his uncanny knack of scoring great goals.

Nick Watts: New to the sport of hockey but adjusted amazingly well, managing to bruise and maim many of his opponents (even some of his own team sometimes).

William Johnson: Willy was one of the more lively members of the team, always yelling at us from his position as goalie, and when the other team scored a goal he would still yell at us. An almost unbeatable goalie and will be a strong member of the team next year.

Kyle McCallum: The smallest member of our team and always smiling about something. He was like a pit-bull terrier, never giving up and always trying his hardest. Kyle will be a strong

member of the team in years to come.

Phillip Tetzlaff: Phillip improved a great deal over the season; next year he will be a very good defence player for the team. Overall, a quiet team member but I'm sure he'll come right, like the rest of us.

William Franklyn: William started late in the season but by tournament time he was a force to be reckoned with. He could be relied on to bring ACDC or Metalica to each game without fail.

#### Girls' First Eleven

Once again, this year at the Opening Season Tournament, Forest View High School Girls' 1st XI played extremely well, giving even the top teams a run for their money, if not defeating them. However, throughout the season things did not run as smoothly as anticipated; towards the end of the season we were struggling to hold our team together. You might say that when we were good we were very, very good and when we were bad we were awful. Fortunately we managed to finish the season as well as we began it, being placed 3rd in the annual August Holiday Tournament – which would have to be the highlight of the season for the team.

The team is indebted to Mr Des Seymour, our ever-faithful coach who encouraged and coached us through thick and thin. I'm sure we will always remember him for saying, "You just about had it that time, girls!" Thank you!

We also need to express our appreciation for the time Mrs Priscott spent organising and

re-organising the team and making a great job of Manager.

Thank you also to Mrs Crawford for being our umpire and co-chaperone on tournament and to Graham Crawford for being our loudest supporter yet!

And to all the girls in the 2nd XI who played for us throughout the season..... "Thank you!"

The team members are:

#### KELLY WILLIAMS:

Special Skills: Aggressive relentless player.

Quote of the Season: "I swear it's broken; I swear it is!"

Future: Courtesy Hostess.

#### JOSIE WINTER:

Special Skills: Managing not only to take out the opposition, but also her own team members.

Quote of the Season: "Oops, sorry – I didn't mean to!"

Future: Pig Farmer (Hit, grunt, hit, grunt.....)

#### MONIQUE GRAHAM:

Special Skills: When she was there she was

**BACK ROW:** ●H. Farr ●M. Graham ●L.

Robson. **MIDDLE ROW:** ●Mr Seymour ●L.

Bartley ●R. Priscott ●F. Barber ●J. Winter ●

Mrs Priscott. **FRONT ROW:** ●M. Ives ●K.

Williams ●M. Hudson ●K. Rutherford ●M.

Cantwell.

very, very good, and when she wasn't doesn't matter.

Quote of the Season: "Oh, I'm late (again). It wasn't my fault – I swear."

Future: Truancy Officer.

#### MELISSA CANTWELL:

Special Skills: Leaping tall buildings (the opposition) in a single bound with the ball still on her stick.

Quote of the season: "I am cool, I do this all the time – really!"

Future: 4th Former.

# Hockey

## LOUISA BARTLEY:

Special Skills: Running between the goal and goalie.

Quote of the Season: "To be or not to be; to play or not to play."

Future: Activist.

## RACHEL PRISCOTT:

Special Skills: Throwing her body in the way of the ball in the spirit of the game.

Quote of the Season: "Mum, Mum, I've got cramp!"

Future: Union Leader.

## KYLLA RUTHERFURD:

Special Skills: Very versatile and gutsy.

Quote of the Season: "Don't hassle me, I'm having boy troubles!"

Future: Marriage Guidance Counsellor.

## MARIA IVES:

Special Skills: A useful asset in the goal, using every part of her body!

Quote of the Season: "I don't want to play; we're going to lose anyway."

Future: Clairvoyant or Prophet – we couldn't decide.

## HEATHER FARR:

Special Skills: Taking penalty strokes.

Quote of the Season: "Left, left..... Hello, left!"

Future: Drill Instructor (Left, left, left, left, left!)

## MANDY HUDSON:

Special Skills: Prolific goal scorer..... amazing.

Quote of the Season: None polite enough to print.

Future: Captain of winning World Cup team 2000.

## LISA ROBSON:

Special Skills: Too many to recall – magnificent, unreal, splendiferous.

Quote of the Season: "Melissa, get out of the way! Faith, what are you doing?"

Future: Nobel Peace Prize of Rigged Articles.

## FAITH BARBER:

Special Skills: Infinite skills – dynamic, wonderful, splendid, awesome, modest.

Quote of the Season: "I would have got that but the goalie was in the way."

Future: Prime Minister of Botswana.

P.S. None of the last three players had any involvement or input into this article. The above is a true and accurate report of "Us."

Signed:

Faith Barber

Lisa Robson

Amanda Hudson

## Girls' Second Eleven

From the beginning this group of high-spirited girls were prepared to give the hockey season all they had.

No matter what it took, they were going to give it their best; this meant giving up their precious Tuesday and Thursday afternoons which would otherwise have been completely devoted to study.

The 2nd XI team were a tough and determined bunch. Each game was taken with complete seriousness and all game tactics were applied forcefully with all matter of concentration; their game plan aimed to create a suspenseful atmosphere for the length of the game.

This was no ordinary sports team; this group of girls had no desire to just win their games (which, by the way, they did with remarkable success), but they played each game to the best of their ability and certainly to give their opponents games they wouldn't easily forget.

So let's meet this modest, radiant, courageous team of girls:

- Tracy Hall – was the team coach, who offered her time and experience to create this tough breed of hockey players.
- Miss McKenzie – Team Manager.
- Katy Kedian – Team Captain.
- Philippa Thode
- Lisa Packwood
- Lisa Collins
- Maria Ponga
- Michelle Brown
- Angelene Hall
- Beth Downie
- Susan Kirkby
- Teresa Elliot
- Sharon Brunton
- Sonya Simpson

## Boys' Hockey Nelson Trip

It was sunrise when we left the frosty streets of Tokoroa to journey south to sunny Nelson. One car and a van laden with bags and beefy boys made up our caravan.

Our trip to Wellington was a long and hard one. The Desert Road was in the middle of a tempest and most of us were feeling the effects of the short night's sleep.

On the strait the ferry rolled and turned, along with quite a few of our stomachs.

When we reached Nelson it was already 9.00 p.m. and after a solid day's travelling we were billeted out.

On our first day we were let loose on the town and the next day we played our first game against our hosts Nelson Boys and soundly defeated them. We also beat Waimea, although some of the goals were very lucky, eh Nick?

On the second day we came under a little pressure from Foxton, so the "Super Sub" Paul Derham came on and scored three runaway goals.

Already we were gaining a reputation for our fierceness, partly due to Robbie's and Wilfred's wild swings. Nick's host, "Old Ziggy," shouted us some amusements and beverages for our swift entry into the semis.

The third day came and Logan Park went down to the boys in blue in an action-packed game with a mighty close line on a player, Malcolm!

However, the hand of fate turned three fingers down and in an extremely intense game against St Andrew's we went down.

That night we hired out Space World for half a night and everyone enjoyed themselves with endless credits, and Wilfred and Bruce thought they were in heaven!

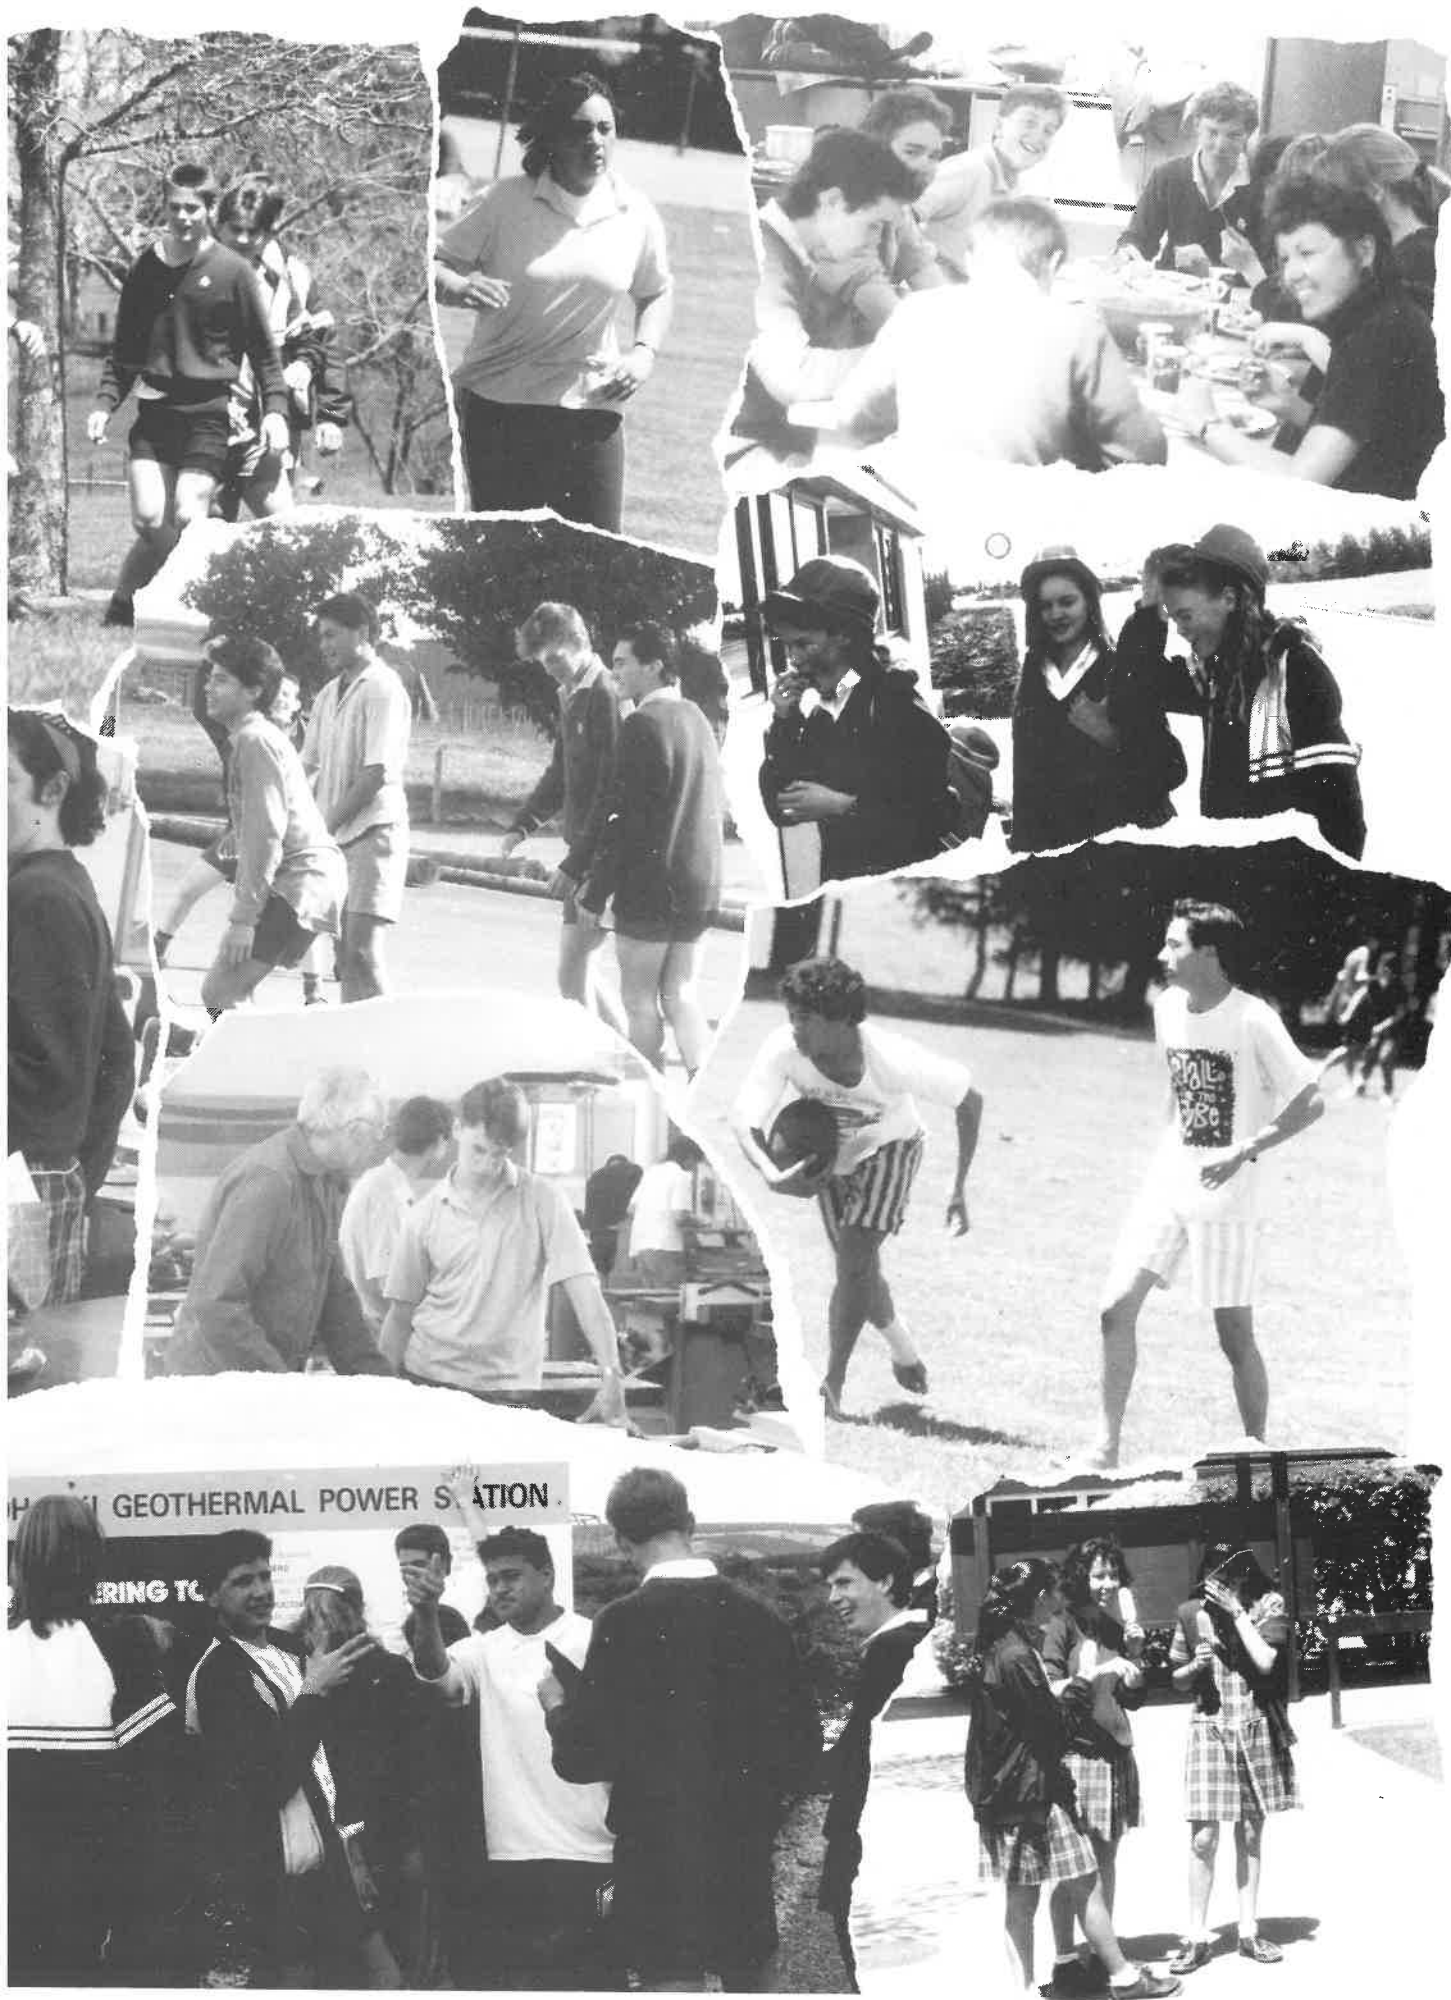

Day five rolled in and we were up against Nayland College on the first wet day in Sunny Nelson. It was another intense game and the defence proved too strong against the opposition with Mad William Johnson, Bruce and his rolling mauls, Jade's tackling, Wilfred's swing and Scott's ballet and indulged in "We Will Rock You" by Robbie.

The final night, it was over at Ziggy's again and most of Nelson came. Kyle proved that some drinks can cause gastric problems. Aaron was nicknamed "Studly Moore" and others were seen playing on motorbikes.

8.00 a.m. we said farewell to our great hosts and headed north again, across less turbulent straits than before. All went well until William Johnson broke a window in the van at Taihape and we had to travel half frozen across the Desert Road.

# Rugby

## First Fifteen

After some early season pack runs which were not well attended a group of 21 was chosen to form the First Fifteen Squad. There were enough old hands in the squad to give us the chance to look forward to a successful season.

However pre-season games were difficult to arrange with the result that the first match of the season was undertaken with only one pre-season match under our belts. As it turned out this was not enough to get us off to a solid start and save for a few occasions we struggled to find our true form for the rest of the season.

The season was made up of 14 games in the Waikato Secondary Schools Competition, 7 away and 7 at home. A training game against the Tritons Rugby Club and the Annual fixture with Taradale.

The team chose Kenneth Mitchell as Captain and Raymond Kaio as Vice Captain and both these players acquitted themselves well in these capacities, both on and off the field.

As the season progressed the inevitable injuries struck along with defections to other endeavours and this took its toll on squad numbers with the result that the true team players had to shoulder some fairly solid playing schedules.

For next season those players who are looking towards the First Fifteen will need to be much fitter earlier in the season and to turn up to all practices and team meetings and most importantly be at all games injured or otherwise

to support their mates. They must be prepared to give 100% to all facets of their game as there are no 'soft' games any longer in the Waikato Secondary Schools Competition.

The season's results ran as follows:

vs Matamata – lost 10-4. Matamata were a mobile, fit side following a trip to Australia pre-season. Won most lineout possession and this proved to be our down fall. An entertaining game and one I didn't feel we were going to win at any stage.

vs Otorohanga – at home – Won 10-6. Otorohanga a light, fit team who were hard to contain. A game we dominated in all facets and never looked like losing. A good team effort and Toia Moke had an excellent game.

vs Cambridge – at home – lost 12-0. A big mobile team with good loosies who gave our backs a hard time. We did well to hold them to 12 points.

vs St Pauls – away – lost 9-0. A top effort by Forest View. St Pauls were one of the 'high flyers' in the Waikato last season and kept us out. A game we should not have lost.

vs Melville – at home – Won 32-0. We took control from the start and Melville who arrived under strength was never in the game. We kept up the commitment shown last game against St Pauls.

vs Hamilton Boys – lost 19-0. As often happens after an 'easy' game we lost concentration. Very little commitment, no tackling and the game was never ours. A disappointing effort.

vs Taradale – won 10-0. Should have been a

big win but some poor finishing, wrong options coupled with same brave tackling by Taradale kept the score down. The story of the season to come "what could have been".

vs Putaruru (College Day at CCNZ) – won 4-0. What a brave effort by Putaruru. They very nearly had us although we missed many scoring chances. They kept pressuring us into mistakes and forcing our inside backs to take the wrong option.

vs Fraser High – away – lost 4-0. Again "what could have been". Fraser scored a soft try early in the game then spent the rest of the game keeping us out. Fraser were another of the top teams in the Competition and to have beaten them would have nearly set us up for the rest of the season. Really bad luck for Forest View. Played in wind, rain and a mud bath.

vs Tokoroa High – Sportsground – lost 24-11. The big clash of the season. An excellent game of rugby by both teams. We gave Tokoroa High

# Rugby

a fright and the result could have been much closer if we had had a reliable goal kicker (we kicked only 4 penalties all season).  
 vs St Johns - at home - won 16-12. A good all round performance with forwards and backs combining very well. Shane Motley was pressed into the wing position from where he scored his try. At this stage of the season we had won 5 games for 95 points and lost 6 games for 96 points indicating just how close the rugby was.  
 vs Te Awamutu - away - lost 28-0. Well beaten by a very good side. We were just not in the game at any stage. Tackling was especially poor.  
 We were not good in away games in poor weather!

vs Church College Second Fifteen - at home - won 19-12. Church College came down to Tokoroa to beat us as they had 7 of their First Fifteen on the field in the first half and we took them apart. So they added 2 more of their firsts in the second half and still lost. A great effort by our boys.

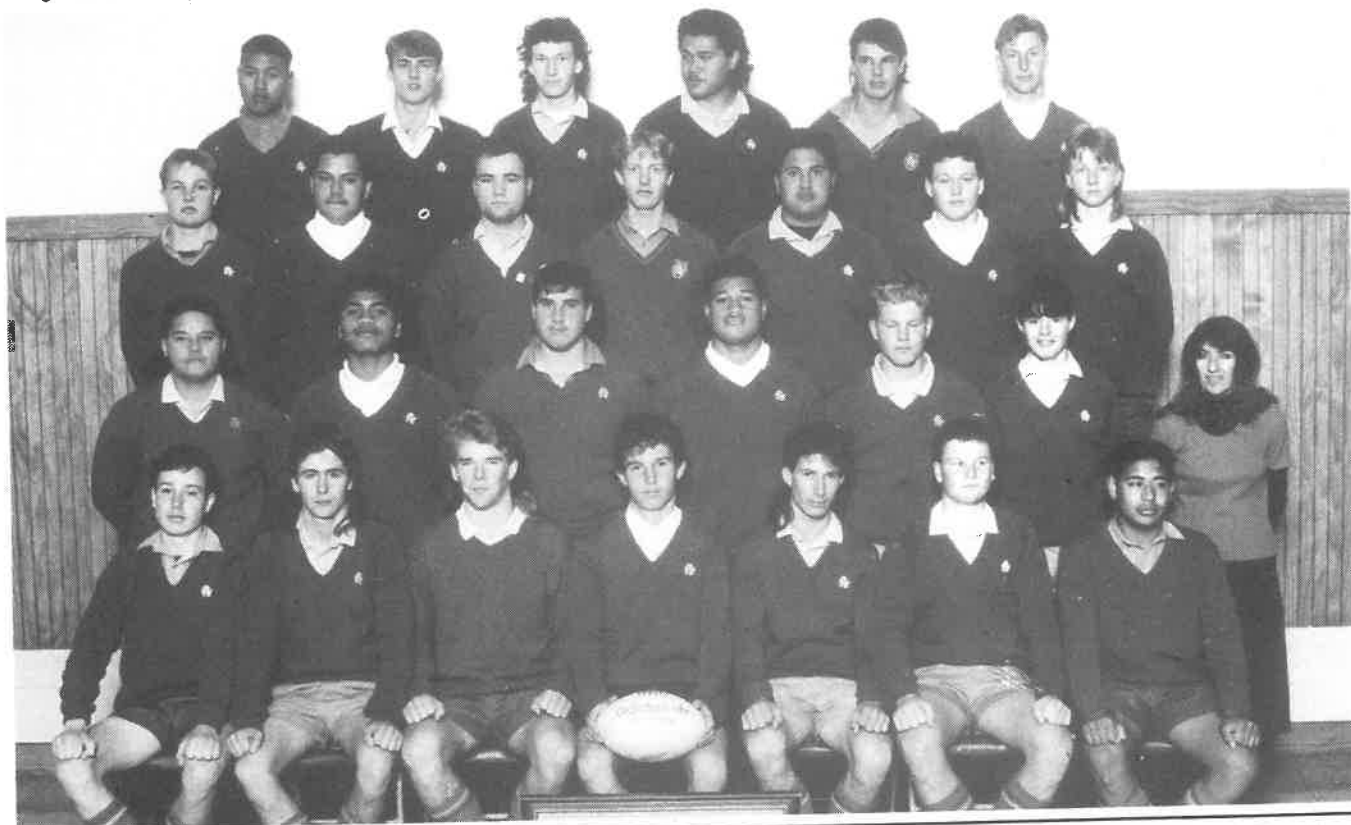

vs Fairfield - away - won 16-8. After a slow start when Fairfield who looked a likely looking team got stuck into us early. We got on top and the further the game went the better we got.  
 vs Church College - lost 48-0. We were lucky to get 0. The weather was terrible and we just did not get started. A major disappointment to end

the season on such a low note. Enough said about this game.

To sum up:  
 Played 15  
 Won 7  
 Lost 8  
 Points for 120  
 Points against 144  
 Tries Scored 18 (forwards 8 backs 10)  
 Penalties 5  
 Conversions 8  
 If the big loss against Church College was

taken out the for and against result sums up the closeness of the competition in general. These statistics also show that only five penalties were kicked - an extremely low tally - and well under half the kicks were converted. If we could have converted more kicks at goal into points we would have won more games without doubt and placed ourselves under a great deal less pressure. Hey guys, if you can place kick a ball well and are looking to the First Fifteen next year start practising now - we need you.

**BACK ROW:** ●R. Phillips ●R. Keutenius ●T. Harris ●E. Togia ●G. Evans ●J. Williams. **THIRD ROW:** ●D. Harris ●R. Kapoor ●R. Leatham ●A. Tetzlaff ●

## The Second Fifteen

The Second XV have once again distinguished themselves by going through more coaches than a South American soccer team. These poor broken wretches have had to be gently led away, sobbing quietly and seated in a darkened room where they generally recover after watching videos of the All Blacks.

The problem seems to lie within the rather distinctive characteristics of the Seconds. For example, they are chronically incapable of doing as they are told and at any given time at least half of them will be anywhere else than where they have been specifically directed to be. They also have difficulty understanding concepts such as "fitness", "practice" and "subs".

The endeavouring habit which illustrates their humility is the custom of having a party when they lose, rather than when they win as most teams do. The Seconds have a lot of parties.

For all this they are a great bunch and it is difficult to pick out any particular members for comment. However we must mention mild mannered Reuben who underwent a dramatic metamorphosis. He is rumoured to have started changing in telephone boxes and was even seen to tackle Eli. This may seem insignificant to the uninformed, but Eli is famous for hospitalising more of the opposition than any other player in the history of the Second XV, usually by the simple expedient of standing still and allowing them to run into him.

Some of the team overcame terrible problems, Raymond with his muscle spasms, Sean's somnambulism and Dillon who suffered the burden of travel sickness and forgetfulness. He once forgot to go on the field after half-time.

One very positive note this year was the massive support we received from parents and friends. Special thanks to Mr and Mrs King, Mrs Davy and Mrs Ginns who provided all sorts of goodies for the after match feeding rituals.

Special thanks also to Marie Jenkins and her team of catering girls. Marie spent many hours cooking, doing dishes, being the orange girl and even got kitted up as a reserve on one memorable occasion.

Thanks also to Rae King, Doug Clark, Heta

Gemmell, Dale Hood and Chris Lambert (he of the bare feet and laid back attitude).

And last but certainly not least, Isaac our vice-captain and Wayne our captain. Wayne in particular spent more hours than anyone ever suspected in organising the team. Many is the Friday night that Wayne was frantically arranging transport and ensuring we had a full team. He has been a massive Captain and will be sorely missed as he goes on to greater things.

Another fun season for everyone, who knows what the future may bring. A win, perhaps!

## Junior Boys

Even though all the boys were under 14, they played up a year. They always played against bigger and older boys. If they stay together they should take out the under 15 competition next year.

**Tyson Marjoribanks** – a major force wherever he played. He made a welcome return after a brief affair with league.

**Michael Allan** – deceptive runner with the ball, superb defender.

**Todd Rowan** – a major powerhouse who locked scrum and dominated the lineouts. Quite a handy touch player. Todd made the Waikato Under-14 team.

**Todd Adam** – quiet man, deceptively aggressive, a real tearaway.

**Bevan Sivka** – another powerful winner with the ball. Also made a welcome return from league.

**Steven Wilson** – worth his weight in gold in the front row (and that's a lot of weight). Will be dynamite when he's fit.

**Nixon McCaskill** – played in the backs, part of dynamic midfield defence.

**Carlos Winikerei** – fast, deceptive and tricky (and that's just in class). A gifted footballer.

**Paul Putoko** – superb attacking player from any position, also made the Waikato Under-14 team.

**James 'Fearless' Franklin** – this man knows no pain, always leads by example, especially in defence. Obviously follows in brothers' footsteps.

**Paul Siulepa** – tough, gutsy little hooker. The

team was very pleased at his full and quick recovery from a nasty injury.

**Clifton Brighthouse** – at fullback, the last line of a very reliable defence, good going forward as well.

**Dale Drake** – made a good recovery after breaking his thumb (skateboard accident?). Finished the season in good form.

**Gareth Baird** – a tough fearless prop in a fearless front row. All three were often outweighed but never outplayed. Also took care of the team as captain.

**Brad Boss** – tough wiry little character, who doesn't know when to quit.

**Haki Wairua** – often the smallest on the paddock, but played with the biggest heart.

**Craig Miller 'Dusty'** – tough, loud, competitive and aggressive, must be a halfback.

**Norman Brooker** – was on loan from Tainui Intermediate School, added physical presence to a generally small side, also made the Waikato Under-14 team.

We remember **Scott Tai** – he played as he lived, always gave the most. Sadly missed.

Mr Dave Wairua, our thanks to you. We could not have done without you.

Mrs Wendy Rowan, a very efficient and persuasive Team Manager, a driving force behind getting the team off the ground.

Mr Clark, Teacher-in-Charge – very pleasing to get three sides on the paddock on a Saturday.

On behalf of all the boys who played I'd like to thank the Coaches, Managers and Supporters who made it all possible.

STATE HIGHWAY ONE

## Triathlon

It was the 24th March as, after much sweat and effort, the keen triathletes set out to tackle the Rotorua Blue Lake Triathlon.

All decked out in the latest triathlon gear (rugby shorts/cut off track pants and singlets) the forever hopeful triathletes scanned the course. Within viewing distance was the Blue Lake which on this day was green, rough and ... deep. The cycling and running course would remain unrevealed hidden by dense, mysterious bush.

Swimmers stripped to the bare minimum and awaited the starter gun. ... "Poo"! 300 slimy bodies eagerly plunged into the Blue Lake and were swallowed up by the icy waters. Spluttering, gasping and doggy paddling with expert style the Forest View swimmers managed to keep up with the best. Ten minutes,

15 minutes, 20 minutes and Kelly Morrissey emerges from the thrusting mass of green water. Another Forest View participant appears, another and another until they are all on dry land, safe after struggling in the baby oil infested waters.

Once ashore the swimmers powered out a last burst of energy to run (togs - ONLY togs) to the awaiting cyclists, who would take over the show. But for those eager triathletes who decided to tackle the entire course single handedly, the event had just begun.

Once bikes were mounted and helmets secured, the swarms of cyclists hit the road. Five minutes, 10 minutes, 15 minutes and Todd Edwards, a team member appeared from out of nowhere. A brilliant effort by all. And it's straight on into the run as cyclists throw their weary forms from bike seats. The run took place through bush and scrub, with only the disturbance of pounding feet, sweaty bodies and noisy thrusting chests.

Out of the bush appears a runner; A first place getter ... a Forest Viewer? No! - but they're on their way. Suddenly, the scrub parted, the crowd roared, the slow motion cameras rolled ... as the first Forest View triathlete ventured from within surrounding darkness. With heart beating and legs moving faster than ever before Matthew Keightley produced perfect, powerful strides toward the finish line. What a performance!

Then, out from beyond came Kelly Morrissey, Trent Cottle and Brendon Graham - like "Chariots of Fire" they finished in glory ... glory of ... well ... just simply finishing.

After a successful day and full tummies the triathletes headed for home.

Mention must also be made of Mrs Hein, who on the side line supported the competitors, after having organised, along with Mr Cantwell, a new experience for the triathletes of Forest View.

1992 Olympic Games - "LOOK OUT" - we're on our way!

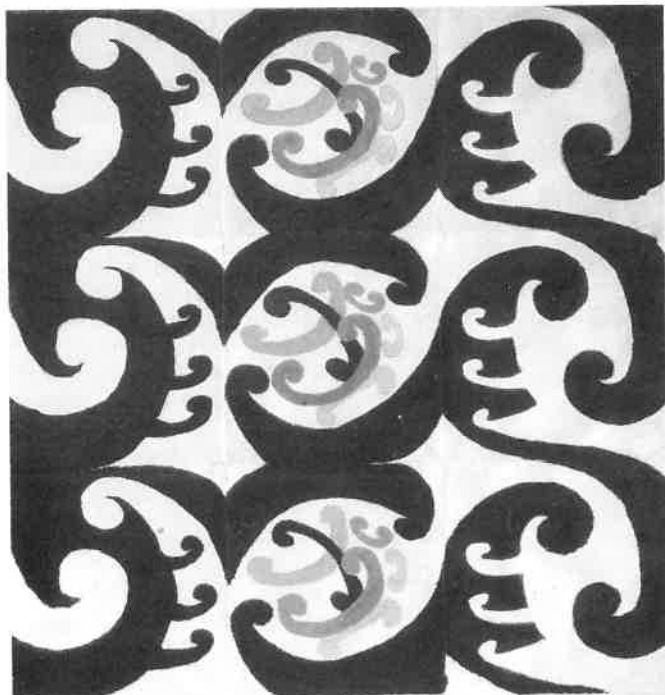

## Orienteering

There were two Forest View High School teams entered in the Central Districts Secondary School Orienteering on Wednesday, 2 May held at Okawa Bay.

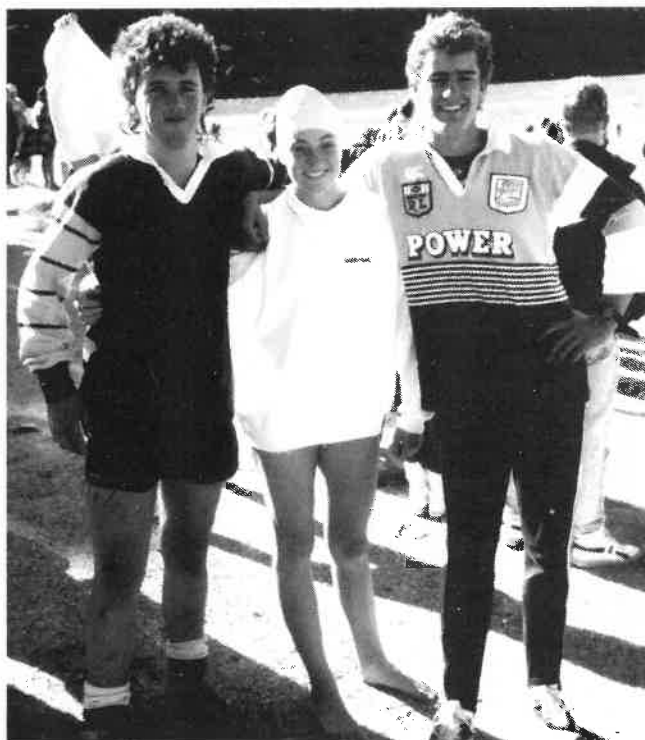

Both teams did well running the courses with moderate success.

The course was through experimental forest near Rotorua with many pitfalls to trap the unwary.

The teams were:	and
D. Adlington	M. Adlington
M. McAlonan	N. Pearson
A. Tetzlaff	S. Merrill
L. Jones	S. Meacham
M. Tomalin	P. Chambers

## Boys' First Eleven

The Boys' First Eleven Soccer had a good year with many players showing fine form and skill consistently throughout the year. Once again we were guided by our coach Mr Huddleston and were organised well under the eye of Mr Rosie, our manager.

The team played well throughout the year but unfortunately we didn't always take our chances. If we scored all the open goals or scored all the goals offered we might have won the League but we had to settle for second place in the Waikato Secondary Schools' First Division behind Hamilton Boys' High School who we beat with only 10 men on the field.

**Brendan Graham** – A well respected member of the team. As captain he kept the team in good spirits throughout the season. His one touch passes and co-ordination with Neil Slater led to some devastating goals and had other teams looking for their transfer papers. He will be missed next year.

**Brett Vincent** – Our Super-Striker who had an uncanny ability to score a goal from a poor cross. Sometimes he forgot what to do with the ball when faced with an own-goal and pushed it wide to give the opposition a chance to win. As Vice-Captain he served his Captain well.

**Craig Depree** – The 'Captain' of defence. Craig often made body checks similar to ice-hockey and on one occasion broke an opponent's leg. Craig would then dribble the ball the whole length of the field only to lose it near the goal.

**Jonathan Scott** – We lost Johnny near the end of the season to Hungary where he went on AFS. He was a good striker and made many good passes up front and he combined well with the other strikers.

**Brendan Dickinson** – This was another player we lost to A.F.S. Brendan went to the U.S.A. where he will try his luck at gridiron. He played well in goal and this was evident as when he played goal-keeper we didn't lose a game.

**Nathanael Wiles** – Played as striker with good skills. He had the nerve in many games to tell the referee how to do his job which almost resulted in him being sent off. He will probably take over the job as captain next year. **Neil Slater** – Neil also left the team at the end of the

**BACK ROW:** ●R. Burnett ●C. Depree ●R. Park

●N. Wiles. **FRONT ROW:** ●G. Dragovich ●M.

King ●B. Graham ●B. Vincent ●M. Cox.

season when he went to the navy. Neil played well and scored some classic goals. Gene Dragovich – A quiet member of the team, but played well in the backs. He always performed to his best ability, even when the girls were whistling from the sideline.

**Fred Sivka** – One of the fastest players in the team, Fred could move to any ball passed to him. However he did have a habit of putting the goal over the top.

**Michael King** – Another good, fast player who scored some brilliant goals through the season. Michael had to choose between rugby and soccer this year. I think he made the right decision.

**Rhys Burnett** – A good player of the ball. Not many players were able to get around him. Next year Rhys will be a stronger and better player.

**Ryan Park** – A striker who showed good ball handling. He would often make runs up the sides which more often than not led to goals.

A big "Thank You" to Coach Huddleston who will be remembered for his 'winning goal' chant at trainings and for all the time and effort he put in even when there wasn't 100% commitment.

## Girls' First Eleven Soccer

There was considerable interest shown in girls soccer this year – almost enough for two teams and perhaps indicating the shape of things to come. Move over rugby! In the end, after rigorous, demanding trials, it was decided to have one big team, which was fortunate as we lost several players during the season. We also lost several games – but who's counting?

It's worth mentioning here that we had a lot of fun, did a lot of talking (if you want to hear the best gossip try joining a girls' soccer practice), wore the best in our division – in fact any division – and built up a great team spirit. Some of the girls still speak to each other!

It's not really worth mentioning most of our scores, or games – there were some very forgettable ones we have to admit – but probably the most important game of the season was also the last, the Big One, against Tokoroa High School. There was a lot at stake here – not only did we have the honour of Forest View tradition to uphold (need I remind you that both the First XI rugby and the First XI Girls hockey team, both managed to LOSE to Tokoroa High – the ultimate shame!), but our own pride demanded that we didn't end the season still goalless.

Since we usually play under 15 boys teams (and to all those sceptics who claimed we play kindergarten teams – get real), playing another girls team meant we had to revise our whole game plan.

Usually our plan consists of everybody desperately defending. In this game, the shock of being in the opposition's goal area was almost too much for our forwards, but in the end, with a little skill and a lot of luck, our first goal of the season went in. The rest is history. Forest View First Eleven Girls Soccer Team : 3, Tokoroa High: 1. Sweet Victory!

The team – Kim Brear, Sheryl Jacobi, Dona Evans, Rebecca Gardiner, Terri Everest, Sarah Grimmer, Kim Ramsey, Renee Morgan, Shelley Brass, Elaine Osbourne, Paula Thomas, Sandra Leacock, Megan Roberts, Uptu Ali'ifa'alago, Maddy Grange and Janine Wiles (also Angela Wanoa, Anslie Pringle and Melanie Stretch who all left during the season), would all like to thank those who put in time and effort to support us, especially Mrs Wiles our coach, Brendon Dickinson the assistant coach (who inexplicably left the country mid-way through the season – he had some pathetic excuse about A.F.S.) and also Wiki, Mrs Evans, the Brears and all our other supporters.

## Under Fifteen Boys' Soccer

The Under 15 Team had a good season and we won all our games to take the competition.

We played two representative games, one against Melville College which we won and also played Taupo and lost 1-0.

There was a good team spirit and the season was enjoyed by everyone. There is a good depth of young players so next year should also be a good season.

We would like to thank our coach Dr Wiles who helped our skills greatly. We would also like to thank Mr Sneddon who helped the team to raise money for jerseys and a trip to Rotorua for the day. He was helped by Mr Baldwin. Also we would like to thank the parents for transport.

## The Second Eleven Soccer Team

This year's Second Eleven Soccer Team included Rowan Pringle, Richard Garner, Daniel Sneddon, Fred Sivka, Richard Cuttriss, Michael Parker, Craig Farrar, Andrew Dickinson, Allan Kahui, Tim Elsmore, Ricky Barret, Darin Morgan, Craig Shaw, Gavin Wilton and Phillip Weber.

This was the main body of the team, but our reserves were Richard Pease, Karl Baldwin, Ben Sneddon, Jeremy Wiles, Mark Sade and Michael Warwick.

The Second Eleven only had one win all season (due to a default), but all the players enjoyed themselves.

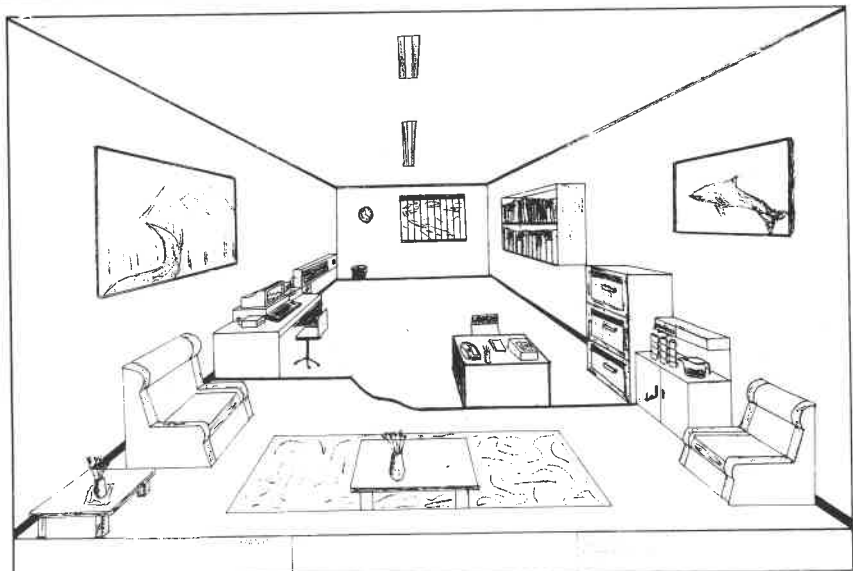

**BACK ROW:** ●A. Treanor ●D. Scarlett ●K.

Baldwin ●D. Bentley ●B. Sneddon. **MIDDLE**

**ROW:** ●Dr R. Wiles ●R. Pease ●K. Mason ●M.

Sade ●J. Dwane. **FRONT ROW:** ●L. James ●

R. McKenzie ●J. Wiles ●G. Burnett ●K. Hewitt.

## Squash

This year our team went away to the Hawkes Bay to compete in the National Secondary Schools Championships. We were billeted out in Havelock North and arrived there on Sunday, 12 August.

This year we had new team members and three of them were third form boys.

Louis, Mathew and David talked a lot among themselves but early on were shy towards everyone else. This didn't last for long though and soon we could never shut them up. They learnt what "Team Spirit" was and ended up as great supporters.

Our first round games tended to be unsuccessful but by second round our play improved. Our girls' team ended up winning the consolation plate and we all won a squash racquet each. The boys tried hard but came across hard competition and were put out on Monday.

Tuesday was our sightseeing day, on the way home. We discovered a beautiful seal in Marineland who just about bit off our fingers. Kiri loved him! We also went to the Aquarium and car racing in Napier as well as shopping.

Mrs Gibbons and Mrs Hein added to a lot of fun and they also had an enjoyable time.

The drive to and from the Hawkes Bay was entertaining with singing and playing haybarn! 1990 trip was a good one and 1991 trip to Timaru is already underway with fundraising.

## Swimming

A very small team (when compared with other schools with better facilities) participated in the Waikato Secondary School Swimming Championships on 13 March at Cambridge's 50m pool.

Kelly Williams was placed 5th in her heat of 50m fly; 4th in her heat of 50m free.

Rachel Priscott was placed 3rd in her heat of 100m back; 4th in her heat of 50m back.

Karyn Lane was placed 3rd in her heat of 50m free; 5th in her heat of 100m free.

Dominique Russell was placed 4th in his heat of 50m breast; 6th in his heat of 50 free.

Greg Lane was placed 3rd in his heat of 50m back.

Karl Baldwin and Tyson Marjoribanks both made finals in their events.

Karl was 4th in his 50m free heat and his 3rd place in 50m breaststroke heat enabled him to qualify for the final in this event where he was placed 6th.

Tyson qualified in both of his events and was placed 3rd in his 50m fly and 4th in his 100m freestyle finals.

We also combined forces with the small Tokoroa High School team and the resulting Senior Girls 4 x 100m relay team with Karen Lane and Kelly Williams, was fast enough to qualify for the final, where they were placed 6th.

N.B. Qualifying for all finals is done on the basis of the fastest 7 times recorded in the heats.

## Taradale Exchange

The time had come again for the traditional Taradale-Forest View sports exchange. This year to be held on our home ground. This was a new experience to the junior body of both schools, but to the seniors, anxiety built up, waiting for old friends and billets to come into sight.

After a warm welcome was given by our Maori Club and Mr Thain, we were 'let loose' to find our billets - chaos took over, seniors gave immaculate smiles and hugs to those who hosted them years before, from the juniors came nervous little speeches - "hello, you must be my billet - do you like pumpkin?"

Taradale had more male participants than the male body of Forest View could handle, but luckily enough, we girls have generous natures and the first fifteen were billeted out within two minutes to a swarm of helpful girls - Faith Barber - a kind-hearted soul billeted four young men.

The Seventh form common room was packed with students from both schools teaching each other new card games for 'study periods'. This learning experience soon turned into competition, after all that's what we were together for. Forest View, I am pleased to say, won the 500 partnership game but had a downfall to the Taradale Card Sharks in the single 'Snap' championship.

## Equestrian Team

F.V.H.S. can be proud of the keen and committed riders which we have.

In March, members went to Turangi for a Gymkhana. Our team was Paula Thomas (senior), Sophie McPherson (intermediate), Megan Bates and Nuala Gadsden (junior). We won 10 ribbons with four fourth places, four third places and two second places. We thank Mrs Bates and Mr McPherson for transporting horses and riders.

In April we sent a team to the One Day Event held at The Crossing at Lichfield. Our team consisted of Penny Burgess, Sophie McPherson, Paula Thomas, Kelly Greenland, Meredith Graham and Ren Erceg (a lone rider from Tokoroa High). We gained first place overall in the Dressage section. However we failed to maintain our lead in Show Jumping and Cross Country.

The competition at the One Day Event was stiff and our riders stood up to the pressures of competition and appalling weather conditions.

It would not be fair to mention those who gave their teacher a nervous breakdown by breaking contact with their horses.

Our thanks to the parents who have made it possible for Forest View High School to be represented in the Equestrian area.

**CHRISTINE HAUGH (Team manager)**

**BACK ROW:** •Mrs Haugh •P. Thomas •K. Greenland. **FRONT ROW:** •S. McPherson •M. Graham •A. Greenland •N. Gadsden.

Taradale was only to be with us for the one night so the 'games' began that very afternoon with volleyball and basketball.

That evening after the Taradale students were introduced to our homes and had eaten pumpkin for dinner, the cars were loaded and we were off to Cinderellas for the traditional social. It was a 'Wild Affair', Tokoroa showing their Taradale counterparts what a good time is.

After the hot steamy dancing the student body and the teachers were separated for the after social drinks - Tokoroa's strategy for the games to follow the next morning. Some of the Taradale players were introduced to some Tokoroa home brew and it showed in some of the 1st Fifteen tactics, Rugby, Soccer (both girls and guys), netball and hockey: the fields were alive with intense participation.

After the showers, the bags were packed and loaded back on to the three buses and lunch was served for all in the auditorium, a sad atmosphere fell upon our happy arena as we realised the time had come to part. Juniors waved and screamed phrases that they will write and "we'll see ya next year and kick your \*\*\* again!" Seniors knowing the chance of meeting again was very slim gave wishes of luck, hugs and even a few tears were shed.

Thanks must be given to Mr and Mrs Clarke and Mrs Stokes.

**Results:**

A Netball lost 21-22

B Netball won 25-21

**BRIDGET DULEY**

Girls Soccer lost 1-4

Boys Soccer lost 4-5

Rugby won 10-4

Girls Hockey lost 1-4

Boys Hockey lost 1-2

Girls Volleyball lost 2-0

Boys Volleyball lost 2-0

Girls Basketball lost 24-12

Boys Basketball lost 43-25.

## Forms Six and Seven Physical Education

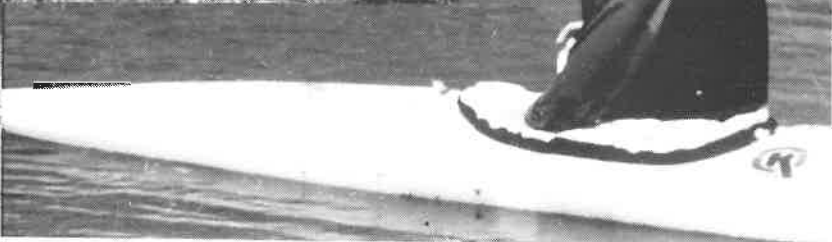

This year we made big changes in our 6th and 7th Form Physical Education Programme of electives, running blocks of different sports for about five weeks. During the year we have had six blocks. Pupils chose one sport from each block therefore having the opportunity to experience six different sports.

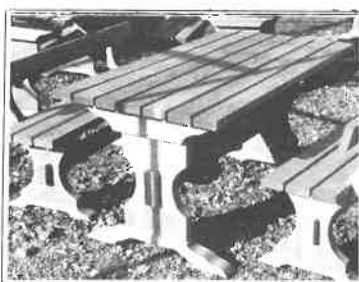

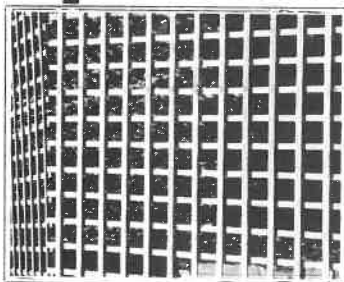

We have had tremendous support from various local sports clubs and organisations enabling us to take part in a diverse range of activities from water-skiing, canoeing and rock climbing to bowling, shooting, golf and roller skating.

The response from pupils has been excellent and we hope that the programme will continue to run next year.

## A.F.S.

Many students participated in AFS this year. Some of our people are experiencing a new culture this year overseas, while foreign students are being hosted here at home.

Paivi, Vicki and Chad are our three AFSers hosted for this year and here are some words from each of them.

Hi,

My name is Paivi Anttila and I come from Finland.

I've had the best time of my life here in New Zealand. I have had so many new experiences, such as O.P.C. where we learnt for example Kayaking, Mountain Climbing and did lots of Tramping! Also my South Island trip in the August Holidays was great. I did skiing, jet boating, white water rafting and of course Bungy Jumping!

I hated it at school in the beginning because I found it hard to make good friends – probably because I didn't speak English well ... I was really lucky to go to O.P.C. and then the 6th Form Trip as they helped me make good friends.

School here is very different to a Finnish school – so I felt really stupid the first school morning when I had to wear the school uniform for the first time of my life ... I've also been used to studying about 14 subjects in Finland so studying only six subjects in New Zealand wasn't so bad!

It has been really good to learn new things in Maori Cultural Group and learn to play netball in the 7th Form Team!

I want to thank you all who have helped me and been my friends – I'm going to miss you all!  
**Luv Paivi**

Hello everyone!

Things are going well. Forest View is a nice school and I've really enjoyed the time I've spent here. I had fun at the Ball. I would like to say "thanks" to all the teachers who have given me extra help when I've needed it, to all of my friends, even though a lot of them still make fun of my accent, and to everyone who has either made things easier or more enjoyable for me. Thanks a lot, you're great!

**Chad Myers  
Ohio, U.S.A.**

When I first arrived at Forest View I was a bundle of nerves (new country, new people, who wouldn't be?) When Mr Thain told us in assembly the first Monday "School is not for fun, or to enjoy, it's here to help you learn", I thought, what have I gotten myself into? I realise now, however, that what I got into was one great learning experience that I'll never forget.

Hi everyone, my name is Vicki Wendt (or Vixster as some of you call me). I come from a small city (?) of 4049 in the U.S.A. called Columbus in a state called Wisconsin. I have two brothers, Brian 27 and Mark 22. In New Zealand I stayed with the Sommerville family who I thank very much for hosting me and being there during my AFS experience. You were wonderful! I'll never forget you.

In New Zealand and Tokoroa in particular I have found many new and exciting challenges. At Forest View I learned how to abseil, play cricket, rugby, netball, bowls and squash. I also at Forest View learned the Maori Culture by

joining the Maori Cultural Club. I travelled to Australia with the group and that was also a new experience.

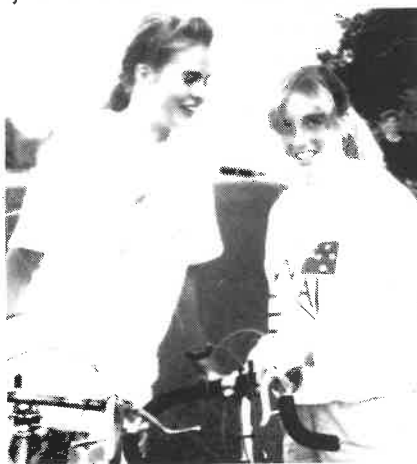

School has also involved me in many things. I think the two things I enjoyed the most were the 6th Form Trip and the Ball (with the party afterwards). At these two events I found the real parts of people. The 6th Form Trip was special because it was my first trip to Auckland and I learned a lot. Singing on the buses, shopping on Queen Street, the skits and just talking to everyone was good. The Ball was an experience for me also because it was really different to the Balls we have at home. The party afterwards was a new experience too.

My friends at Forest View and Tokoroa High Schools have been my greatest asset in New Zealand. They have been there at all times, good and bad, taking me places, having fun and giving me support. The members of HSM (Heart Soul and Mind) have shown me anything is possible and therefore I salute all your hard work and effort.

To all the people who said "Hi" to me all year, thanks. (I'm sorry I didn't get to know you all better.)

Thank you to Forest View and AFS for having me here. And thanks to all my teachers who put up with me this year.

And a big Thank You to all my wonderful friends. (I'd like to list you all but you know who you are). You don't know what it means to me to have friends like all of you who put up with my antics. You all added something special to my year and for that I will be ever thankful.

And I'd like to give an extra special thank you to Doesjka Taylor for always being you and caring all throughout my year, I will never forget your kindness. And another special thank you to Matthew Risbridge for being my big brother throughout the year. Also thanks to all my problem solvers (Michael Haugh especially) who were always ringing up, Ta!

I love you all and will miss you very, very much. Take care and good luck in your future.

Love,  
**Vicki Wendt (AFS, USA 1990)**

If you'd like to write my address is:

Vicki Wendt  
751 S. Lewis Street  
Columbus, Wisconsin  
U.S.A. 53925

I am sure it will be hard for these three to return home and leave all their new found friends behind; as was the case when Christy went back to the U.S.A. We all miss you Christy so you'd better keep writing to us.

From Tokoroa four students have already left to venture abroad while four of us are waiting for our exciting day to come. Here are some letter excerpts from those who have gone.

**Kellie Arthur, Denmark**

It is very different living on a farm especially when Far is harvesting the fields. Also biking through the countryside to get to the train station is different. At the beach most women are topless and nearly all the guys I've seen wear speedo's – (mmm) – actually some guys look good in them...

(That last line reveals Kellie's intentions).

**Angela Edgar, Brazil**

Peggy and I went to this ice-cream place. It was soooo Yummy!! We had these banana splits, they are sooo Humungus!! There were three scoops of ice-cream (the strawberry ice-cream has pieces of real strawberries in it) with banana and apple on the sides and sprinkled with ...

(You can guess what kind of time that fatso is having).

**Jonathan Scott, Hungary**

Budapest is just like Auckland, it rips you off! And just like Christy, this money doesn't seem real and I spend heaps! I've almost spent US\$200 but I've done heaps of travelling inside of Hungary...

(Like all AFSers a budget is hard to stick to).

**Katrina Buckley, Czechoslovakia**

One other thing I have to tell you about is the beer and alcohol here – it is so cheap! About 2 American Dollars for a bottle of Vodka, or about 25 cents for a milk shake size cup of beer. And what's more the beer is very potent. It's about 12% alcohol. I had one cup and was really happy but everyone here is used to it – even the kids and they drink it like water...

(You can see that she is having a cheery time).

Soon the remainder of us will be able to share our own experiences. Bridget Duley to Paraguay, Sarah Robinson to Italy, Michael Haugh to France and myself, Mark Cole to Germany.

Something to remember is that no matter where you are around the world, friendships exist whether it be old or new and great ones will remain always. AFS brings cultures closer together and this is what AFS is all about: to promote World Peace.

Thank you to all those who are part of the organisation and have given us students this opportunity.

## Cricket

The 1989-90 Cricket Season bought mixed fortunes to our 1st XI. After a clean sweep of the local Inter-School games against Putaruru, Tokoroa High School and Pio Pio we suffered defeat at the hands of Rotorua Lakes.

This match was crucial to us as it was the first round of the newly created "Gillette Cup" competition for High Schools. As a consequence of this loss we were eliminated from the competition.

The Senior South Waikato Cricket Association's competition saw the team struggle through the one-day rounds due to lack of consistency and fire power. To its credit Forest View were runners up in this competition after winning it for the previous two seasons.

The school did well in the two day competitions losing outright only two matches out of the eight played. Our school being the only team entered which was exclusively a High School team.

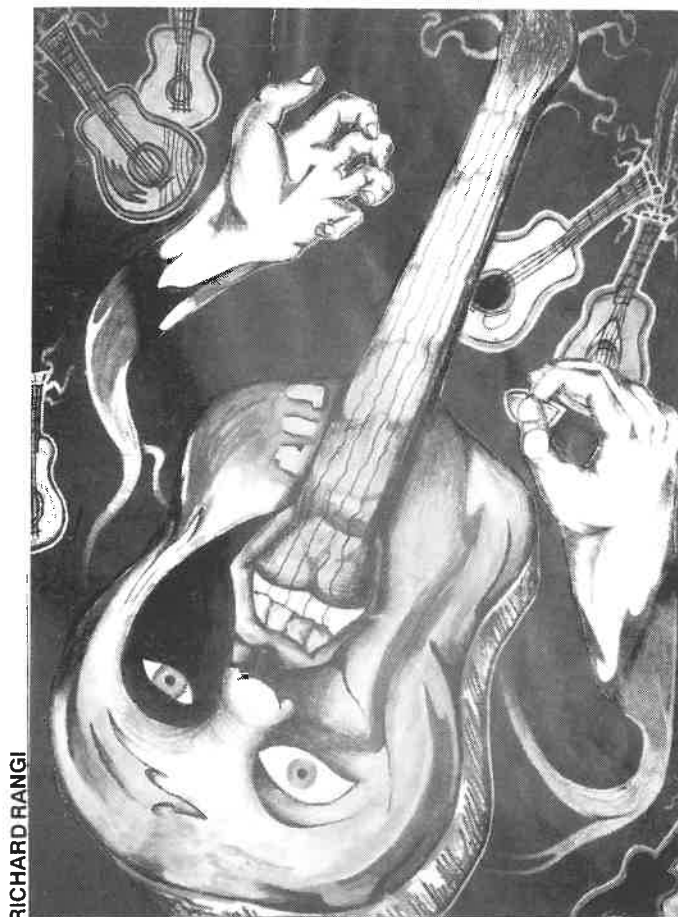

Highlights of the year were centuries by Paul Derham and Peter Albutt in this competition.

Paul Derham ended the season as the South Waikato's highest aggregate scorer with Michael Parker leading the bowling averages. These feats are remarkable given the fact that the competition has within it many fine adult players with tons of experience.

Our thanks go to Mr Bloch who gave so freely of his time in coaching and managing the teams.

## Ski Trip – 5 August 1990

"Twas the morn of ski trip  
and all through the house  
nothing was stirring  
not even a mouse"...

Not surprising really, considering (a) the time: 6 a.m., and (b) the house: mouseless. It took a superhuman effort to get up, but in retrospect I realised it was the easiest task of the day. Three quarters of an hour later, the exodus to Whakapapa Ski Fields had begun.

On arrival we leapt excitedly into the mountain goats, waiting to be transported to Whakapapa Village. Next came the fiasco of gear hire. Nothing short of a nightmare.

We set off towards the treacherous slopes of 'Happy Valley'. "Who's skied before?" No one. "Okay then, who's for free ski instruction?" Everyone. The next sight was a mass of bodies everywhere. No place was safe to stand as there were beings sliding and skidding around on everything but skis.

After a great day's skidding, hordes of drenched to the bone people crammed into the public shelter awaiting the mountain goats to carry them homeward.

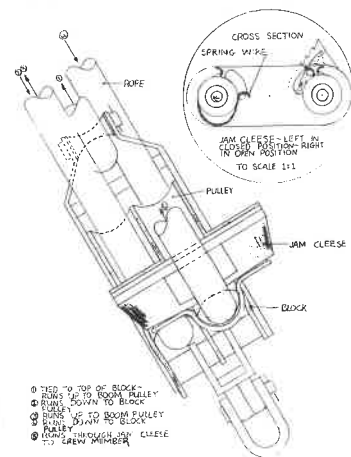

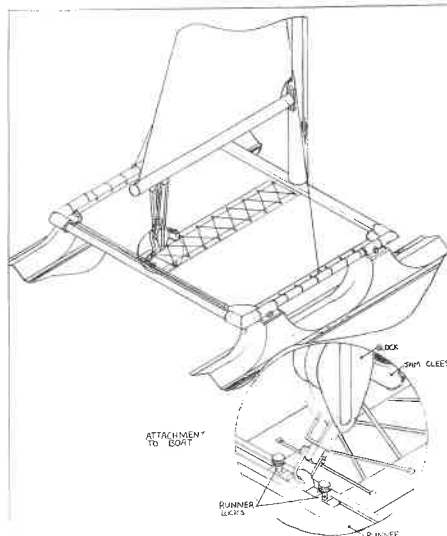

Taupo's 'De Bretts' hot pools were soon to become a melee of weary bodies, contemplating a day of new experiences and adventures.

A group of very keen students had such a great time the Forest View Ski Club was soon formed. Thanks to Mr and Mrs Clark. Many excellent and rewarding days' skiing have been had since.

## Tennis

This year's Tennis Team was a most successful one. Mr Whatarau took the team to Lugton Park in Hamilton earlier this year to play in the Waikato Secondary Schools' Championship. This day produced most pleasing results. Dion Hayes and Corey Solomon were runners-up in the Junior Boys' Doubles. Cara Paterson and Jacquie Hudson were runners-up in the Senior Girls' Doubles. Findlay Shilton won the Senior Boys' Plate and Carlos Winikerei came runner-up in the Junior Boys Plate.

Thanks to Mr Whatarau for encouraging and organising us.

## Outdoor Pursuits

Because O.P.C. fees went up this year, people going to O.P.C. decided to try and fundraise to reduce the costs. Several interesting (!) cake stalls and exhausting bike rides later we were a little bit better off.

It rained marginally less at O.P.C. this year. This meant that the drying room was not full to overflowing until 6.30 p.m. on the Monday (it was 5.45 p.m. last year!)

A new option of mountainbiking for the week was available to senior students and was taken up with enthusiasm by nine of the group. The 10th, Kirstine Lomas of course, found the going rather tougher than she had imagined and was very good at letting the others know! Siobhan Gadsden came a close second in these stakes! It was in this option that Trent Cottle also had his comeuppance – learning the need for a cycle helmet the hard way. He took a dive at the bottom of a hurtling run down a steep stream. His hands and knees looked most impressive. He was pleased as it meant he got out of all the cleaning chores; in fact he positively enjoyed the bike clean-up – watching Haylie and Kirstine doing his bike for him.

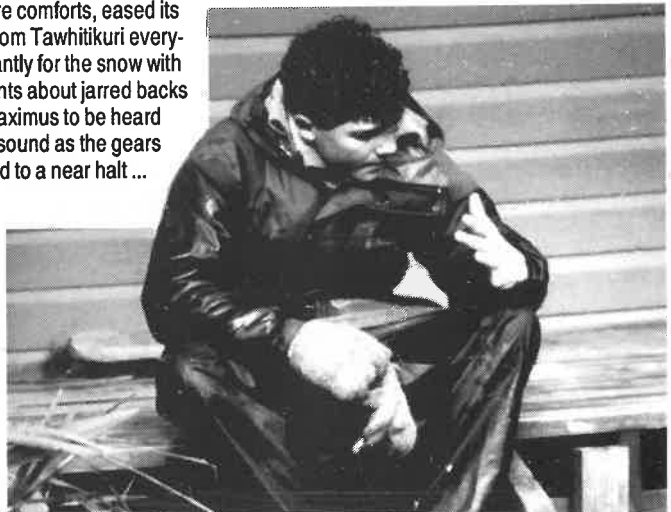

A day trip to the snow was looked forward to with great excitement – many never having reached it before, as was evident by the number who arrived on the luxurious transport without a hat, – they were sorry later! As this vehicle, with all mod cons and creature comforts, eased its way up the winding hill from Tawhiti-kuri everyone was looking expectantly for the snow with only occasional complaints about jarred backs and bruised glutinous maxims to be heard above the crescendo of sound as the gears crunched and we crawled to a near halt ... Graeme slept!

A group of somewhat younger pupils showed the edge in initiative tests and group-thinking, climbing over, under and through all manner of imaginary hazards. Jeremy Wiles showed that what he lacked in stature he could more than make up for in ingenuity and monkey-like skill on the climbing walls.

Anyway in the five days the three groups managed to do just about everything. Well most of the groups got to do most of the things! From tramping down freezing rocky rivers to kayaking to caving to white-water rafting to the snow (why is it that everything to do with OPC is connected in some way to freezing water?) to tramping down MORE freezing rivers – of course, some biked down, up or through their freezing rivers – to sleeping out in the RAIN (some of us were lucky and got to sleep in a weta, bat and glowworm infested cave!). The last morning saw some awesome mud fights as the groups made their dreary trudge back to the centre. Everyone got generally exhausted, wet and muddy and had a really great time.

Our three AFS students were all in the same group and proved that mud had as much of an affinity for them as any born and bred Kiwi. Christy (USA) and Paivi (Finland) in particular, looked most attractive on their return from overnight – Whoops! – camp.

## Fifth Form History Trip

The cancellation of the Wellington trip did not inhibit Mrs Priscott's determination to at least let us experience a shorter trip.

In comparison to the Wellington trip, the next historical exploration which she planned turned out to be mildly smaller and shorter. We were to experience a day trip to the Waiouru Museum. (Where? Waiouru! - is that in New Zealand?)

So, bright and early at 7.30 in the morning a blue Tokoroa bus full of excited, attentive historians could be seen departing Forest View, for a day of eventful and unknown experiences.

On arrival at the Waiouru Museum everyone's first priority was to satisfy their hunger pains, especially since lunch was still an hour away.

Before familiarising ourselves with the museum (which actually seemed like the only building in Waiouru) it was a quick class photo session in front of some impressive looking historical war machines.

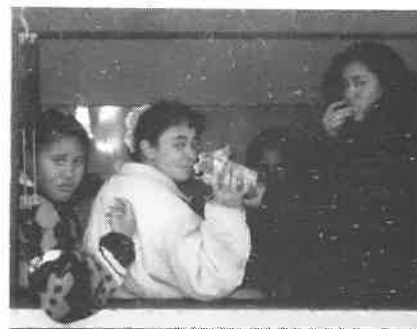

Then inside the museum firstly to watch a film and then we were guided around the displays inside the museum. It was evident that a country as small as ours had contributed greatly with its fighting forces, during the various war confrontations.

Certainly our stomachs couldn't stand it any longer, so a rush to the bus for lunch, (no McDonalds around here it seemed).

So feeling satisfied with the amount we were able to eat in the short time available to us it was back into the museum. Here we were given safety instructions and some historical background on firearms. For some the talk clarified a few fabricated, imaginary fantasies, as some were disappointed to discover that 'Rambo' is not actually capable of the largely dramatised stunts which prevailed in his films.

The chance to use the firearms seemed to attract only a small minority of the class. Those who did, I think, relished the thought of using some colleagues as their targets; unfortunately no one volunteered.

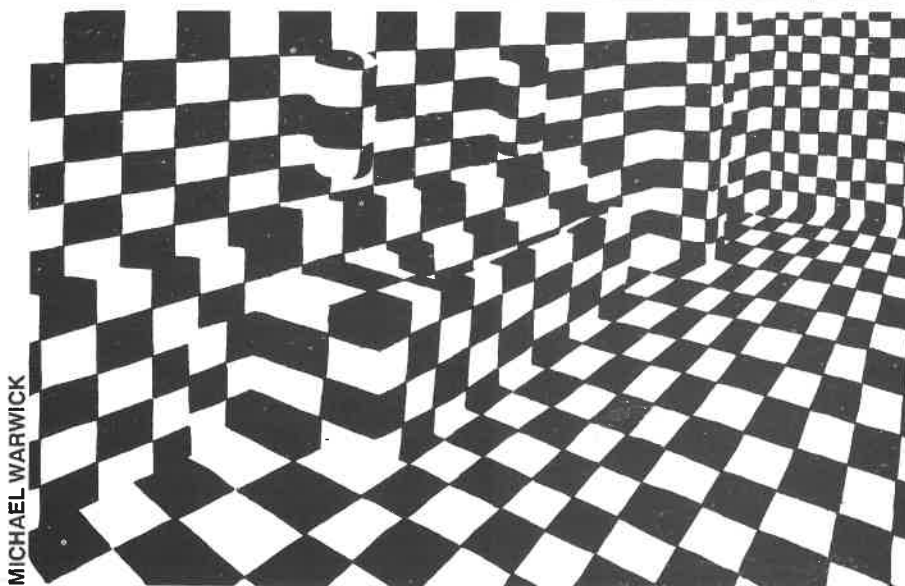

Now our trip wouldn't be complete without being assigned some task; and for us that meant gathering information for an assignment Mrs Priscott had so cleverly provided.

Well, the day had passed quickly and it was time to return to Tokoroa. The day had surprisingly gone smoothly, but due to the inability of two males to read the time it took a little longer before we left (typical males). I might add that this year's Fifth Form History class is dominated by females, with only three boys.

Most of us spent the trip home reasonably quietly, while others found enjoyment in taking pictures of others asleep.

## Youth For Everest 1990

April 20th 1990, Judith Vanner, Lisa Robson and Jennifer Timmo left Auckland airport to spend a month in Nepal trekking to the top of the world.

Youth for Everest is an organisation set up to involve young New Zealanders with the Nepalese culture to give them a chance to help increase the standard of living of these people, to spread awareness of their environment, and, at the same time, to experience this different way of life.

Kathmandu was in the midst of riots at the time of the expedition and the girls experienced some of the terrifying upheaval of curfews and killings just to add to the excitement of their journey.

The mountains were a great jump from Kathmandu – peaceful and serene, and the trek to Base Camp, lasting 13 days brought many different experiences for all three. Jennifer became sick with *Jardia* quite early on the trek and was forced down the mountain to regain her strength for a slower ascent. Through food sickness Judith became enclosed in the Gamma bag – quite an experience – and Lisa was

certain that she had seen a fire works display while on high altitude medication at Everest Base Camp.

The New Zealand climbers – Gary Ball, Rob Hall and Peter Hillary (who had walked with the group two days before) summited on the morning of the 10th May. Judith and Lisa listened over the direct connection radio at Base Camp as Peter planted the Kiwi flag at the Top of the World, and talked to New Zealand live.

The main clean-up project was complete as they reached Base Camp, and all they could do was take photos of where the rubbish had once been. So after the successful summit it was back to the 13 up, with an average six-eight hours of walking. Each day down, as on the ascent, showed a totally different terrain. Base Camp to Grek Shep were amazing iceforms on the Khumbe Glacier that made the path quite dangerous especially if affected by altitude sickness. The next day Morrain Glacier – barren, then into the lush forest areas of the river valleys filled with rhododendrons and musk deer. But the real attraction of the Himalayas and

Nepal was the beautiful people, so poor but so content with what they have. They met many strange and wonderful friends and people and saying goodbye forever at Lukia was a sad one. Then it was homeward bound with stops in old Kathmandu for the first shower in two weeks and an overload of pizza and chocolate, then Singapore and pioneer shopping and a soft bed to dream of home, and mountains that we left behind.

## Heart Soul and Mind

Heart, Soul and Mind originated at the beginning of this year at Forest View High School.

Their first appearance was at the Catholic Hall in Mossop Road when they played for Daniel Umaki's Father's 50th Birthday. Their second public appearance was in May at the School Variety Show and their third appearance was at the Savage Club in Matamata.

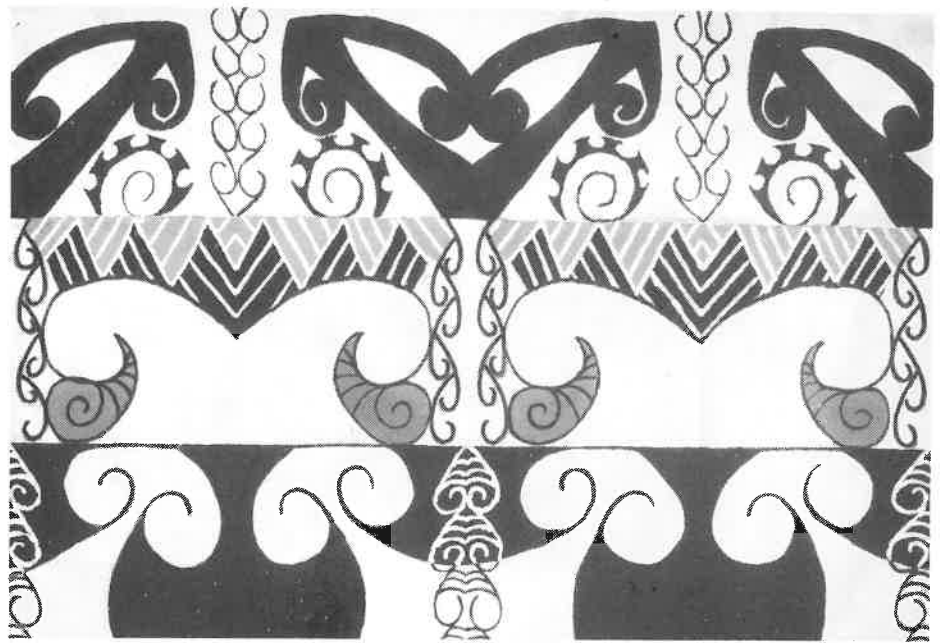

Then came the Talent Quest at Cinderellas. This consisted of three public appearances. In the heats they came second and went through to the semi-finals. They won their semi-final and then in the grand final came third, which was a good placing for them as they were up against professionals.

During the year the 'Boyz' have found it easy as well as tough at times, but they always get through without too much trouble. Heart, Soul and Mind have had a lot of offers from various people including the organiser of the A and P Show. They accepted that offer and attracted a good crowd.

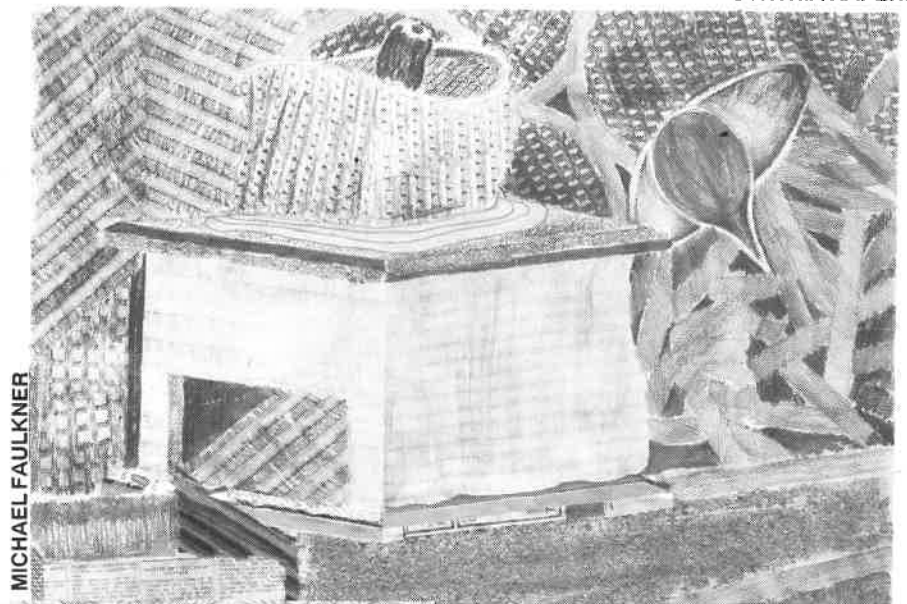

There are seven people in the band. On the bass we have Daddy Umax (Daniel Umaki), the drums Stevo (Stephen TeNahu), on rhythm guitar Raymower (Raymond Kaio), lead guitar Boss (Wayne Sinclair), keyboards MacGyver (Wade Maxfield), lead singer Big M. (Mathew Risbridge) and last of all the Roadie Robo (Wayne Robb).

On behalf of Heart Soul and Mind I would just like to thank everyone who supported them at Cinderellas during the Talent Quest, and also all the teachers who have been extremely supportive and helped with transport and gave advice when it was needed. It was much appreciated.

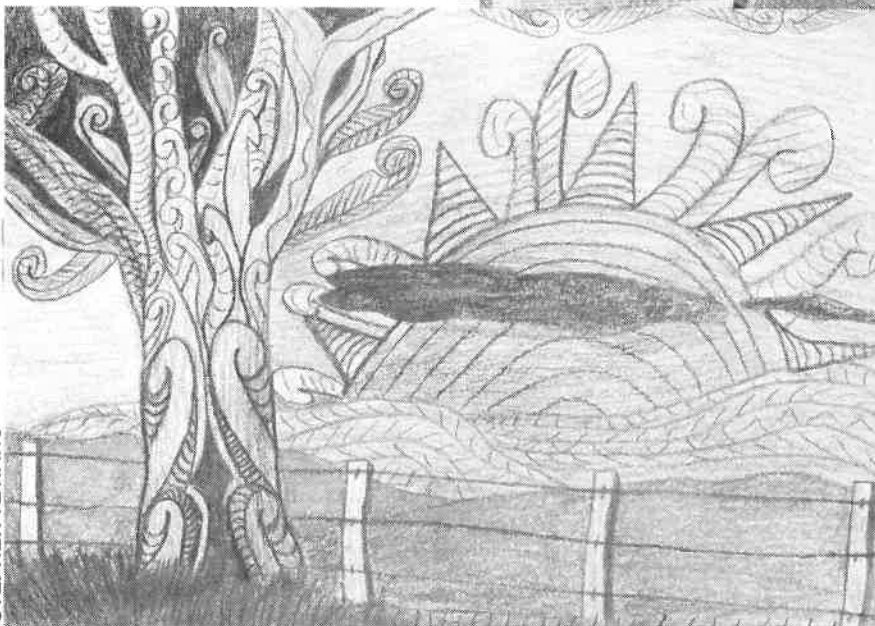

MARIE JENKINS

CYNTHIA KAPENE

MICHAEL FAULKNER

STEPHEN TENAHU

## Speeches

An extremely high standard was evident at this year's finals, especially the senior speaking. The speeches were not only well prepared and spoken, but the speakers seemed truly sincere about their topic and conveyed this in the content and delivery.

The competition was tough and many times the judge must have found it quite hard in announcing a winner.

Congratulations to:

Form 6/7 Cheryl MacGregor

Form 5 Jacqueline Hudson

Form 4 Alistair Edgar

Form 3 Tasha Bonnar

Thank you to the Judge, Mr J. Blackie, who was fair and gave many of the budding young speakers plenty of tips and advice for future public speaking.

Thank you to those who participated and to the audience who were very supportive throughout.

## WORKING LATE

Snowflakes are falling ..... gently  
the girl waits  
hesitating

The teacups rattle and splash  
the working boy thinks .....  
wondering

The cafe looks crowded  
the girl sighs .....  
despondently

Working in the cafe  
the working boy thinks .....  
of the girl

Life is empty  
the girl trudges homeward  
to wait for the boy's .....  
apologetic phone call

Dishes mount up, frying fats smell  
the working boy .....  
calls the girl

Click, the receiver is replaced  
outside the snow silently ..... falls  
the working boy is .....  
working late

*Susan Kirkby*

## CATS

Sleek, sly  
Quick, smooth, dainty  
Moving fast but gracefully  
Cats

*Melinda Veldhuizen*

## LIVE TO RIDE

Strong grip on my freedom,  
My fist full throttle,  
A full bottle of my favourite spirit,  
On my super edition model.

Waves formed by the wind,  
Whistle as I ride by,  
People stop and stare,  
But I will not deny,  
That I will live to ride,  
A need to ride to live.

*Carolyn McKenzie, 4Wh*

The thunder and rain,  
Crashing, beating down on roofs,  
Flooding the forest floors,  
Watering the whispering leaves.

Drops, trickling down windows,  
Splosh, splosh, into puddles.

Thunder, scary as a lion,  
Frightening small animals,  
Like the boom of a gun.

*Renee Taumata, 4Wh*

## CANDLE

Flickering in the darkness  
Wasting away  
away to nothing  
The light  
becomes darkness  
Once again

*Laura-Jane Cobham, 3Ro*

## RINGATU GATHERING

The wind rustles  
leaves are tumbling across the marae,  
a blanket of darkness coats the sky  
a bell rings

Warning!

People scramble inside the whareniui  
children looking distressed and tired,  
restlessly finding room,  
hoping it will all be over soon.

A shadow appears in the doorway, a  
silhouette,  
the kaumatua, children filling with fear  
"makutu, makutu" they whisper.

"Kua mutu te pere"

We bow our heads and pray  
thank Him for living  
we raise our right hand,  
we're begun .....

*Tina Hata*

## BOREDOM

Boredom is such an uneasy word,  
Every says it and is always heard.  
"Mum, I'm bored! What can I do?"  
"Go play outside, now be off with you!"  
"Give me the car, give me the bike!"  
"Go on, son, go play with Mike."  
"Nothing to do, nowhere to go."  
"No, hang on a minute, I'll watch my Mum  
sew."

*Donna Iorangi, 3W*

## MEMORIES

Paint me a picture of sunshine and lace  
Paint the tears that fall from my face  
Put your brush to the paper and paint me a  
smile

Then picture the love we held for a while  
Colour the raindrops silver and shine  
So I can never forget that you were once  
mine

Shade in the years that we had together  
Darken in the fights that brought stormy  
weather

Paint me a picture of love that was wasted  
Capture the pain of the love you have tasted  
Take your brush from the paper and turn  
away

And picture me crying as you walk away.

## THE TROUT

My heart is a lake of love  
It's so deep I can't touch the bottom.  
I look into your eyes and I start to weep  
The lake overflows with my tears;  
Soon I am going to drown.  
I feel your hands and shiver inside,  
I feel your heart and tremble.  
At that moment we share a common destiny

The destiny of love and life.  
As I am the trout and  
You are the fisherman.

*Petrina Wisniewski, 4Pa*

## RAGLAN

Molten rocks silhouetted against the  
fading hues of sunset reds.  
Treacherous cliffs and black volcanic  
sands fence off the boiling sea  
and land.

The sea roars with frightening fury  
And lone men battle their supremacy  
against barrages of white water and  
razor-like rocks.

Painted roofs and glistening glass  
speckle the bush-clad hills  
whose backs are carved with  
windy roads  
Pumice precipices are illumined red  
like glowing coals  
As gannets and gulls make their  
evening song.

Statue-like figures  
stand in their windows  
Gazing at the red band on the west  
And on the wharf and men gather  
Fishing with rusty rocks  
Patiently waiting for their time to come

A shell-like fishing boat  
Heavily laden and bloated  
Splutters and chugs across the mirrory  
harbour waters

Palms and pohutukawas  
Line the estuary shores  
With regimental beauty  
Under which lovers kiss and talk  
To sweet sounds of summer crickets.

*Nicholas Watts*

## INSPIRATION

Flowers in the morning, sunrise clear and bright  
 Leafy shade of afternoon, songs of birds in flight  
 Fleecy clouds that slowly drift across the sky of blue  
 Evening shadows, velvet soft and sparkling with dew  
 If thought had wings today you'd hear  
 The sound of songbirds flying near  
 If wishes came true I'd bring to you  
 The sweetest flowers that ever grew  
 Faith and love to light the way  
 All this I wish for you today  
*Kim Barrett, 3DI*

## STORM

Clouds crashing like the surf over a beach  
 Rain, thunder, snow falling from the sky  
 Beating down upon the ground  
 A tumbling, trickling torrent  
 The mighty sound of the thunder  
 Like a King ruling his land  
*David, 4Wh*

## FLAME

Dancing along a log in the fireplace,  
 Doing somersaults and flips.  
 A perfect little gymnast.  
 Dancing like little ballerinas, so airy and light.  
 But the little ballerina becomes greedy.  
 She runs along the log  
 And a whole line of dancing flames appear.  
 Soon the whole log is ablaze  
 And the single flame is no longer graceful,  
 But a huge monster,  
 Taking up the whole fireplace.  
*K. Hovind, 3Wo*

## FUTURE

The sun is a faint glow in the heavens  
 as plumes of smoke rise and  
 merge into the leaden sky.  
 Rivers of brownish grey run to  
 an oily sea.  
 Downtown cars' headlights  
 illuminate the Midday  
 streets.  
 Green is only a painter's  
 colour.  
*Nicholas Watts*

## STARS

Like diamonds shining brightly in the sky  
 Twinkling brightly in the dark of the night  
 Up above the world so high,  
 The stars are always there,  
 They'll never die.  
 Glittering playfully in the sky  
 The stars play games  
 With the human eye  
 Up above the world so high,  
 The stars are always there,  
 They'll never die.  
*Thomas French, 3Wo*

## STORM

The storm begins to collect,  
 The black raging clouds are gathering  
 Like soldiers crowding for a battle.  
 Then, the golden spears of lightning pierce  
 the sky  
 Shattering a small group of clouds.  
 Big thunderous commands are given,  
 Yes, the battle is great.  
 But soon no one would know  
 That a battle has taken place,  
 The sun is shining,  
 The earth is new,  
 The storm has subsided.  
*K. Hovind, 3Wo*

## FREEDOM

Locked in a cupboard for over an hour,  
 was a little wee girl, a hidden flower.  
 Locked away in the dark where she could  
 not be seen,  
 they finally found her, all bones and very  
 lean.  
 Nowhere to go except four different corners,  
 and do nothing but dream of nightmares  
 and mourners.  
 But she'll be free to live her own life,  
 away from their ignorance and away from  
 their strife.

*Donna Iorangi, 3WI*

## THE MAN IN THE GUTTER

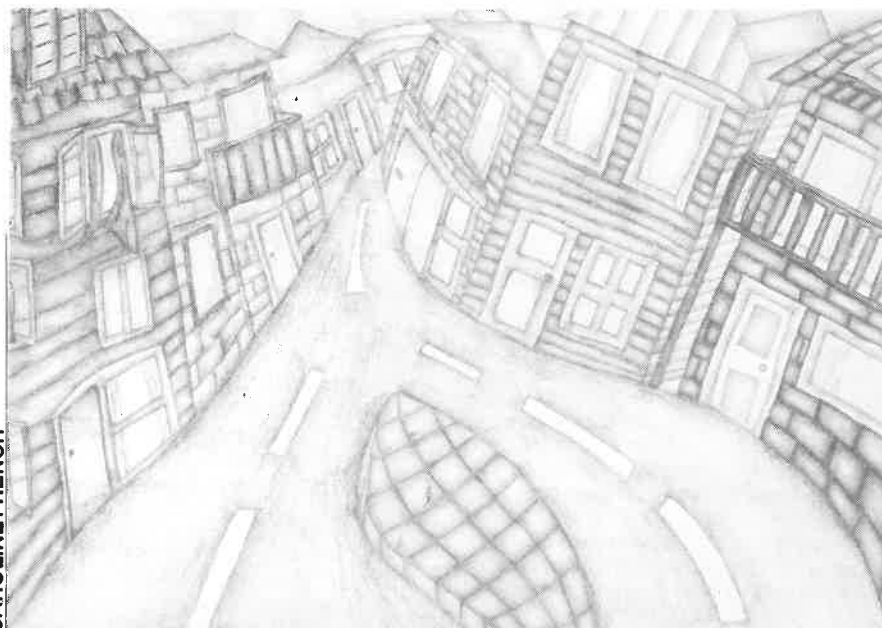

Remember  
 that old face  
 the man in the gutter.  
 Wisecracking police  
 took him away  
 to who knows where  
 that old face  
 remember.  
*Paul Siulepa, 3WI*

## THE SUN RISES

The sun awakes to a bright new day,  
 it wakes you up and makes you think,  
 that the sunrise in a way,  
 is a bright orange, red and pink  
 nice way to start your day.  
*Roseanne Jefferies, 3WI*

## CLOUDS

The clouds are a picture theatre  
 open to everyone  
 They play everything  
 to satisfy your every wish  
 A silent movie  
 An adventure story  
 A cartoon  
 A romance  
 They hold the secrets of the world  
 Your imagination is the key  
*Karen Lichtwark, 3Wo*

## APARTHEID

South Africa a country apart  
 Colours separate and divided  
 White supremacy, Black inferiority  
 Black Versus White  
 Blacks segregated  
 Politically, socially, economically.  
 Freedom of movement restricted.  
 Black Versus White.  
 Like animals locked away  
 they are caged in the  
 homelands and townships.  
 Black Versus White.  
 They fight for change,  
 they fight for equality.  
 Protests, resistance, Soweto and  
 Sharpeville.  
 White has superior control  
 Blacks are deprived.  
 But only over what?  
 A difference of colour  
 Black Versus White.  
*Salome Berge*

## LOST

Standing all alone  
 with no idea which way is home  
 I might have to stay out all night and roam  
 But still I might wait for the stars to come up  
 and wish on the first to give me good luck  
*Denise Grant, 3WI*

## FRIDAY AFTERNOON

The teacher is trying  
 To hold our attention  
 And I  
 Am willing to concentrate.  
 Slowly, unwillingly  
 My eyes creep toward the window  
 And outside,  
 I am lost in the sky  
 Or is it the sea  
 Of peaceful waves  
 And foaming white tips?  
 The teacher sighs  
 He knows he has been defeated again,  
 by Friday afternoon.  
*Kim Ramsey*

# Creative Writing

## FREEDOM

Freedom is a word that has no meaning,  
No one can ever be free,  
Free as a bird is not free at all.  
They are not free to choose the colour of  
their wings,  
They are born with what they are given,  
Not really free at all.

I live in a country of freedom,  
But yet we are not free,  
Our parents, our society,  
They all rule over our freedom,  
There are standards and rules,  
They can't be broken,  
Not really free at all.

Even our minds are not free,  
Our thoughts are trained  
To think good or bad,  
Our emotions and feelings are ruled,  
Even if only by ourselves,  
Not really free to dream or cry,  
Not really free to love or hate,  
Not really free at all.  
ARE WE FREE???

*Meredith Graham, 4Pa*

## SPITFIRE

Back then only one bird  
Ruled the sky  
Some say it didn't live  
But with the soul of a human  
It struck fear into the Germans  
With the grace of an albatross  
It soared and swooped  
Its wings were sturdy  
Its body was tough  
And its guns were precise.  
Even the modern-day jets cannot compare  
They stand back and admire  
The sturdy heart  
Of the big bird  
Called the Spitfire.

*Glen Roberts, 3Wo*

## RED

Red is danger, cruel and mean,  
Red is anger, that I've seen,  
Red is sunset, fresh and clean,  
Red is meat, tender and lean,  
Red is an accident, covered in blood,  
Red is a heart loss, someone I've loved.  
Red is to stop the cars at the lights,  
Red after scratching of itchy bites,  
Red is apples, juicy and crisp,  
Red is a cherry to colour my lips,  
Red Cross is there, always with help,  
Red tape in parliament, hiding what's real.  
Red is red pepper, a nice tasty meal,  
Red as carpet, laid for the Queen,  
Red rag to a bull, look out once it's seen,  
Red is pen ruling the end.

*Meredith Graham, 4Pa*

## STREET KID

Lonely and cold I stand alone  
Like a whisper in the wind  
Waiting, wanting, wondering  
If anyone will take me in  
Despite I stand  
No money in hand  
What does the future hold  
Alone I fall, like darkness on day  
And still I feel the cold.

*Vanessa Moses, 5Pc*

## THE MEANING OF LIFE

Why is it  
That everyone who  
Dips into the cavities  
Of my heart  
The few who break down  
The barriers  
Either take something  
And never return it  
Or break something  
That can't be repaired.

*Kim Ramsey*

## A SCIENCE LESSON

Smiling faces  
The calm before the storm  
Bunsen burning peacefully.

A hand on gas tap  
Silly thoughts  
Not comprehending  
The trouble he will cause.

A searing explosion  
That blinding flash  
As a ball of fire  
Dances in the air.

Through the yellow haze  
I see  
Expressions of shocked surprise  
Voices, in the distance  
And children reeling back.

But at the sound  
Of the teacher's voice  
My soaring spirit dies.

And I hear the unholy sound of  
Daniel!  
Outside!

*Daniel Bentley, 3Wo*

## WHAT IS IT?

It walks, it talks  
it sings and shouts.  
It plays, it runs  
and barks and yelps.  
It leans, it loves  
and eats and sleeps.  
"No, it's not my Mum"  
it's my dog Caprice.

*Kylie Reti, 3W1*

## OLD LADY

Old lady  
Every morning you look  
Through the windows you watch the trees  
And observe the seasons changing  
The spring brings leaves to barren trees  
And with it the promise of life  
Does it remind you of your youth  
Old lady  
Do you remember what it was like to be  
young  
You were spring once  
The summer comes  
Bringing blossoms and shadows to the trees  
Does the summer remind you of your prime  
Old lady  
Was that so long ago  
You were summer once too

Then autumn comes  
The leaves turn red and gold  
They are changing, dying  
Is that you  
Old lady  
Are you autumn  
Are you red and gold  
Winter creeps in on arthritic branches  
Bringing death and cold  
When will you be winter  
Old lady

Is your time approaching  
Will you embrace winter  
Old lady  
As you have the rest  
Are you ready  
Why do you watch  
Old lady  
Why do you watch the seasons change  
*Abby Collier, 3Wo*

## LATE NIGHT RADIO

The voice articulates  
crisp, clear over the line  
dispelling loneliness .....  
solitude

The next song begins  
monotonous beats vibrate  
and shiver through the world  
blowing away disturbing thoughts  
and  
Saddam Hussein  
*Susan Kirkby*

## RIVER RAPIDS

River rapids  
A roaring torrent  
Crashing through a narrow gorge  
This water takes life  
*Rhys Burnett, 3Wo*

## MEMORIES

Blurred pictures, images  
Strange sensations.  
A smell, feeling, taste, sound,  
picture,  
Recall a memory.  
Hidden are those we fear.  
Those we welcome offer joy and  
comfort.  
A memory will linger with no  
limitation.  
A quality we share  
from birth to death  
Memories.  
*Salome Bergs*

CARA PATERSON

# Creative Writing

## BASTILLE DAY

The roaring sea of bitter and angry revolutionaries surged up against the stout oak doors of the Bastille. It screamed in frustration; the cries of those crushed lost in its mighty roar. All its attention was focused on the fortress Bastille – a symbolic bastion of the oppressive monarchy.

"Do you hear the people sing?"

I watched from my vantage point at the top of the gate – feeling safe in the knowledge that they could not get in. The tension which had culminated in this outburst of violence had been building up for weeks. The bitterness and anger had been building up for much longer. I continued peering down at the sea of revolutionaries, spellbound by the fury.

The sea battered itself against the door; bloodying itself in its frustration. It seemed to wear a maniacal grin as it pounded endlessly against the rocklike doors.

A man appeared – a stranger whom nobody knew – and lunged at the doors with an enormous pole. Others followed, grabbing poles from wherever they could be found, and pounded at the stronghold door. An earshattering crack signalled success and the sea roared in approval.

The doors splintered and cracked and finally tumbled down; not at all gracefully. The sea drew back hastily as heavy beams of wood came crashing to the ground. Before the haze had cleared the sea spilled into the Bastille with a deafening roar of triumph.

I battled through the storm of dust to land in the foyer of the Bastille. I caught sight of the man – the one who had started the pounding with poles – and he immediately seized my attention. His brightly coloured clothes were new, not only in the sense of age, and yet he seemed familiar. I followed after him as he led an incensed wave of revolutionaries.

The sea seeped into the deepest realms of the Bastille, roaring in the joy of a brief moment of freedom. Cries of 'equality,' 'liberty' and 'freedom' resounded against the forbidding walls of the fortress of oppression.

The man pounded the corridors, ignoring the pleas for help from desperate prisoners. He was riding the crest of a wave of hatred, and his eyes sparkled in the delight of it.

I sped up in an effort to keep up with the frenzied wave. Again his familiarity nagged at me, but the uneasiness was soon left behind as I rounded into the room where the wave was about to crash.

The man pulled out a vicious dagger and pointed at the Governor, who cowered in the corner; every pore of his body seeped arrogance, bitterness and anger. The wave hesitated, apprehensive of murdering anyone – even a puppet of the stifling monarchy. Taunts of 'cowards' and 'fight for freedom' from the man spurred the wave on. The Governor cried out in anguish as he was crushed by the crashing wave – he drowned in a swirling frenzy of violence.

Triumph lit up in the man's eyes as he left the sickening scene, and an evil grin plastered across his face. The beating, the violence and the hating kept on going, even as he disappeared around a corner.

It suddenly came to me why the man seemed so familiar – it was not his clothes or his actions; it was the ugliness which he seeped. There was always one like him at revolutions and uprisings. Always one who manipulated high ideals into twisted violence. I wept inside, knowing that the ugliness would spread.

As the frenzy of killing died down, the wave disintegrated into a disjointed group of men. Repulsed by the sight of each other, they stumbled out of the room, all in a daze – their hands tainted with blood.

I left the scene behind me, the horror of it lodged inside my mind. Below me the people of Paris roared in triumph, brandishing their newly acquired arms and welcoming the former political prisoners to newfound freedom. The cries of joy rang hollow for me as I remembered the ugliness I had just witnessed.

For how long would there be joy?, I wondered. In my heart I knew it would be a tantalisingly brief period. The violence and hatred which had been born in that room would spread, like leprosy through a body – the whole of France would be engulfed in a frenzy of slaughter. The terrible irony being that it had been started by noble thoughts of equality, justice and liberty.

I was so wrapped up in my sorrow, I didn't notice the shadow of the man casting over me. I looked up and saw a look of

annoyance on his face – I felt my body convulse as I realised that this man was not satisfied with a single death.

I came closer to the man, locked in morbid fascination. Suddenly a first came plummeting towards me –

The man wiped the remains of a rather mutilated fly off his hand and began his long trek home.

*Michael Haugh*

## RAINBOW

As I gaze from my bedroom window  
At sunrise,  
The sad rains and bellowing winds,  
Are gone.

They leave their sign of friendship;  
An arched beam of light  
Of all colours imaginable,  
To encourage the lands about.

*Katrina Edwards, 3Wo*

## ALIEN

Long-legged lady  
Standing still as a deserted building  
When the Alien falls from the sky  
Its beady eyes looking straight into you  
Destroying your mind bit by bit  
A great silver ball for its head.  
It laughs to itself as I awake.

*Kelly Abbott, 4Wl*

## THE ROSE

The colour of a fresh-cut rose  
With leaves of green,  
Which could only be found,  
In the deepest forest.  
In the coldest winter,  
For if its thorn would pierce your tender  
skin,

Your blood would match its colour.

*Karyn Robson, 4Wh*

## DREAM RIDE

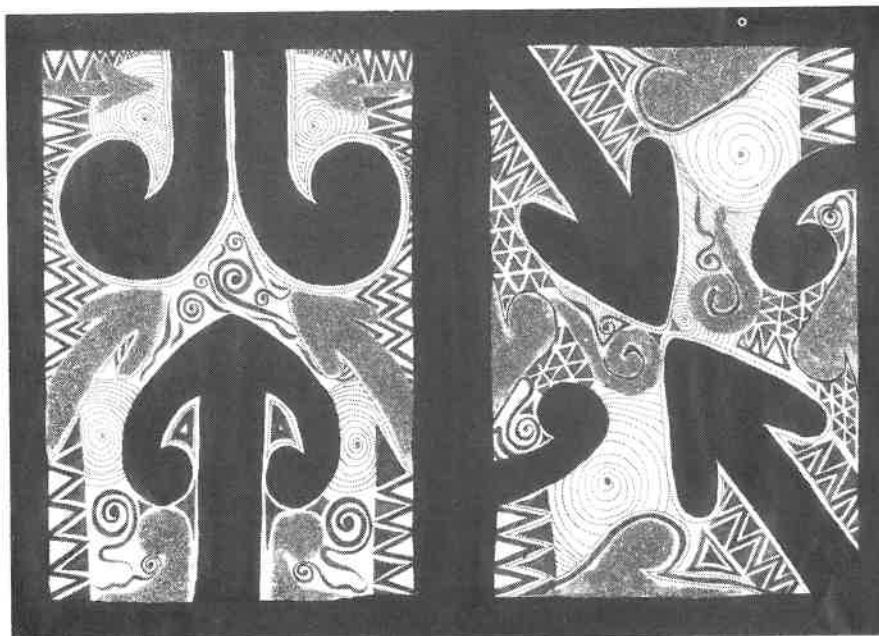

The car grows on  
The wheel like a lifeline  
in my hands,  
the only thing stopping us  
from taking a death-leap over the cliff  
or burrowing into the bank.  
My feet push down on the pedals  
regularly, like a cyclist,  
my left hand switching through the gears,  
back and forth.  
Each new corner is an opponent  
to be taught and beaten,  
the roadmetal of the tyres  
cheering us on.

*Anonymous*

## A DAISY

A daisy blooms  
Its petals  
Long white teardrops  
Its middle  
A ball of orange fire  
Its leaves  
Full of newborn life  
A daisy dies  
Its petals  
Long white decrepit dewdrop  
Its middle  
A lime-green ball of doom  
Its leaves  
Droop at the prospect of death

*Karen Lichtwark, 3Wo*

### Swimming

Karl Baldwin (1990), Greg Lane (1990), Karyn Lane (1990), Tyson Marjoribanks (1990), Rachel Priscott (1989, 90).

#### 4CI – Trip to Australia

After a few tense moments at Auckland Airport caused by Mr and Mrs Clark not being allowed on the plane, we finally arrived, all together, at Sydney International Airport.

We rushed to get on the coach and see Sydney.

First stop was our apartments which would be home for the next four days. But, not wanting to stay in one place for too long, we soon left for Kings Cross to try out Aussie McDonald's and see for ourselves what the night life was really like. That night we got our first look at what poverty really is – seeing drunks asleep on park benches left something to think about on the train ride home.

The next morning a group of people went for a run with Mr and Mrs Clark while the rest of us slept, until Mr Dale woke us all up and we climbed onto the coach.

We were supposed to have a full-day tour of Old Sydney Town, which was very impressive, but due to rain we were "forced" to leave early and go shopping in Manly. That night dinner was served in a Chinese restaurant and then on to Sydney Tower.

Unfortunately, Rebecca and Mrs Priscott didn't make it but returned the next night with another small group.

On Monday it snowed up by the Blue Mountains and Jenolan Caves, so we drove around Sydney, stopping at points of interest such as Bondi Beach and then a taste of shopping at department stores like Grace Bros. We then moved on to Darling Harbour for lunch and more shopping and later a harbour cruise on which a certain person tried to see if he could fly.

Tuesday we finally made it up to the Blue Mountains, where we went down the steepest railroad in the world at a 52-degree angle! Tea for some was at home but for those with the energy it was time to hit the Eat Street of the Queen Victoria Building.

Wednesday we invaded Taronga Park Zoo where wombat-lovers like Sharon got to see their favourite animal.

That afternoon we travelled to Canberra and somehow Kristy managed to stub her toe. Swearing, hand gestures and calling the coach a bus cost you anywhere from 10 to 50 cents each time, with all funds going to the Sydney Children's Hospital, occupied time during the four-hour trip.

On Thursday uniform was worn as we visited the Australian Parliament Buildings, Art Galleries and the Royal Mint.

Science was proven to be fun on Friday morning as we visited the Institute of Science and Technology. The afternoon was dedicated to visiting the Institute of Sport, with many of us not wanting to leave because we were so impressed.

Thanks goes out to our coach driver Mike who became an essential part of our tour, even when he woke us all up on the last morning with wet flannels.

Thanks also to Mr Dale, Mr and Mrs Clark, and Mrs Priscott for your support and help on the trip.

We can't forget Miss McKenzie, to whom we can only wish a never-ending credit limit after all the things she charged while we were away.

Thanks again to all concerned.

Rachel Priscott

#### Fourth Form Camp

The announcement of a camp to the Totara Springs Christian Camp near Matamata was received with vast enthusiasm by an overworked, drained, lifeless fourth form.

So, three tightly packed buses of impatient, relieved fourth formers and an over-supply of luggage left for four days of freedom – or that's what they thought.

On arrival at the camp it was a mad rush to the sleeping quarters and familiarising ourselves with our home for the next four days. The days that followed consisted of a variety of organised activities. For this to work efficiently, we were divided into groups and purposely not put together with our friends.

Mrs Stokes was usually situated on the top of the tower taking the abseiling. I think some of us feared that in her fragile condition she might spring into labour at any time.

Mrs Priscott could be found relaxing around the swimming pool, offering her specialised advice on how to stay afloat in the water.

Mr Crawford had the rewarding job of trying to persuade us to abseil down a steep, slippery cliff from which you descended into a river which some feared contained eels.

Mr Dowdle took our canoeing, which consisted mostly of sitting in a canoe and yelling abuse at it for its lack of co-ordination.

Mrs Josephs and Mr Gordon took people through the confidence course. The majority of us returned from the course covered in bruises with a few stories to tell.

Mrs Sommerville taught us the secret to target shooting, which was rewarding only if you managed to hit the right target. Along with this activity was mini golf where more time was spent looking for the ball than putting it into the correct hole.

Mrs McKenzie sent us on the orienteering course around the camp.

Mrs Trigg aimed to teach us the technique of tennis and one of them was not to lose the only tennis ball.

We also received some self-defence training from a Youth Police Officer. Some of us forgot that this activity was only a practice exercise, and the aim was not to injure and treat our partner as an enemy.

Lastly was the walk to the Firth Tower, where we were given the historical background and a

tour around the museum complex.

Every night after our meal, the classes battled in competitions in hockey, basketball and volleyball.

#### Salome Bergs

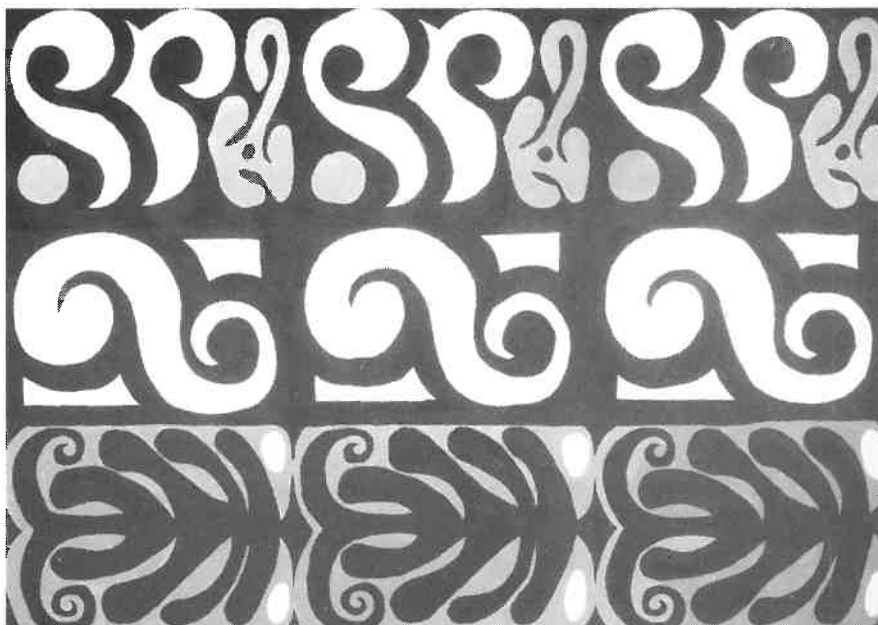

##### Howlers

- Ten a Koto, Greetings.
- Joan crowned the dauphins at Reams Cathedral.
- the city ..... a different world where people are selfish and mean and where you have to stick up for yourself.
- It was a lake with tresses surrounding it. I put my feet in the water.
- **5 History:** "Effects of the 1930's Depression."
  - "Instead of separation of families, divorcees would set in."
  - "Both parents were out looking for jobs – this meant a low birthrate."

YET "The depression led to a baby boom. When men lost their jobs the only thing to do was to sit around and have babies. Because they didn't have contraceptions so babies are all what sprung up. The government dealt with this by setting up relief camps to separate man and women so that babies would stop booming up everywhere."

OR "Vast warehouses would employ people for 12 hours a day and they had unsatisfactory hygiene and safety procedures."

- ..... and only purchase your hardware from a reptile store.
- A-1 – means Artificial Intelligence.
- Question: Who wrote the paper "The theory and organisation of complicated Automania"? Answer: John Von Newmann, when he was drunk.
- The 1930's Depression caused high infant immortality.
- ..... hardships led to worse than dying – they led to suicide.
- A loud noise as a wood dove crashes through to land on his roasting place.
- My first sight in the bush was the birds perched on the lower branches of the trees. Roasting out of the rain.
